🗃 Bitte forgfältig zu lesen. 🖼

Speciale Offerte bon Gemüse- und Blumen-Sorten, nur in Radeten. Die letzten Paar Jahre offerirte ich mehrere Collectionen von Semüse- und Blumen-Samen. Da aber viele Kunden Uenderungen in denjelben verlangten, so habe ich auf die folgende Art einen Ausweg gefunden um alle in dieser Hinsight zu befriedigen. Ich überlasse die Auswahl von Sorten den Kunden unter folgenden günstigen Bedingungen:

Für 25c fann	ber	Räufer	Samen	in	Pactete	zum	Werthe	von 30c	wählen.
" \$0c " " \$1.00 "	H	u u	и и	H	"	H		" 70c " \$1.60	- "
" 2.00 "	. 4	u.	, ii	11		71	A.	" 3.25	
" 3.00-"	."		"	**		"		5.00	1

Samen bei Gewicht oder Maas tann hiermit nicht einge: ichloffen werden, ba ich an diesen keinen Rabatt erlande. Ich wüniche nicht migverstanden zu sein. Diese Offerte gilt nur Camen in Padete, und nicht solchen beim Maas oder Gewicht. Ich bitte dies zu bemerken. Ich bin bereit, solchen die es mir überlassen wollen, eine geeignete Auswahl zu treffen und zwar unter benfelben Bedingungen.

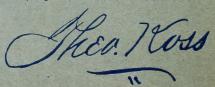

Marttgartner und folde welche Gemufe-Samereien in großen Quantitaten faufen, fende ich auf Berlangen meine Engroß-Preislifte.

Ich bin immer bereit die Preise von zuverlässigen Roncur: renten gn vergleichen.

Rataloge stehen zu jeder Zeit gern zur Berfügung und irgend eine Austunft in meinem Branche wird mit dem größten Bergnügen prompt ertheilt.

Rann ich nicht darauf rechnen, Ihre Bestellung in diesem Frühjahr zu erhalten? Sie werden sicher mit der Aussuhrung und den bon mir erhaltenen Samereien besser zufrieden sein wie je zuvor. Es zeichnet,

Achtungsvoll,

Saatgetreide.

Jahr zu gewinnen. Pfd. 25c, 3 Pfd. 60c portofrei, Peck 35c, Buschel \$1.15, 5 Buschel ober mehr zu \$1.00, Bafhington Safer.

kommen laffen, um Samen fürs nächfte Sahr zu gewinnen. Pfd. 25c, 3 Pfd.

Die Original-Saat dieses vortrefslichen Hasers stammt aus Rußland und von dem einen Pect Haser, welchen wir säeten, ernteten wir gleich im ersten Jahre 27 Buschel Haser, obsichon derselbe erst spät gesäet und die Lage ungünstig war. Aus diesem ersten Resultat konnten wir schon schließen, daß sich dem Erken Resultat konnten wir schon schließen, daß sich der Washington Haser hier nicht allein gut bewähren würde, sondern auch die meisten anderen Sorten in Ergiedigkeit und anderen Sich der berkrießen mitre. Ernerkrubet sich ungerer Sinficht weit übertreffen wurde. Er berftaubet fich unge-mein, jo bag man mit einer schwachen Aussaat auskommt. Das mein, jo das man mit einer jamdagen Ausjaar austommt. Das Stroh, obigion ziemlich lang, ist recht frästig und steif und lagert sich nicht leicht. Die Körner sind schön groß und plump und von gelblich-weißer Farbe. Da dieser Hafer aus Rußland stammt, und außerdem für und in Minnesota weitergebaut wurde, wächst derselbe recht frästig, verstaubet sich seitergebaut wurde, mächs derelbe recht frästig, verstaubet sich seitergebaut wurde, allen Bodenarten fort, und liesert große und sichere Ernten. Bect 30c, Buschel 35c, 5 Buschel \$4.50, 10 Buschel \$8.50.

Lincoln Safer.

Reine andere Sorte Hafer ist jemals so schnell allgemein bekannt geworden als der schnell allgemein bekannt geworden als der Lincoln hafer. Zuerst im Jahre 1893 eingesihrt, dat er sich seit dieser Zeit als der beste weiße Hafer erwiesen und wird jett überall im Großen angebaut. Ist sehr früh, verstaudet sich start, hat steise Stroh mit buschigigen, schwer besadenen Risben und liesert stets die böchsten Eratge. In sieben verschiedenen Staaten war der Durchschildsstätzug 116 Buschel von is einen Ruschel Auskaat Wieser war der Aurohymitisertrug ind Sulvier bon je einen Buschel Aussaat. Dieser Hafer ist sehre widerstandsfähig gegen Witterungseinstüffe, kann große Trockenheit und Näfte ertragen und wird nicht leicht dem Rost befallen, Peck 30c, Buschel §45.0, 10 Buschel §85.5.

Reu: Zealand Safer.

Diefer querft in 1895 eingeführter Safer tam aus Unsftralien und wurde im Jowa weitergebaut, no berfelbe sich gut bewährte. Es ist ein weißer Hafer mit langen, schweren Aehren. Das Stroh ift sehr start und steif, etwas größer als wie bei anderem dafer und legt sich nie. Bisher hat er sich als gänzlich rostfrei erwiesen. Wir können ben Neu-Zealand Hafer empfehsen. Peck 30c, Buschel 90c, 5 Buschel \$4.25.

Reger-Bunderhafer. (Negro Wonder Oats.)

In den letten Jahren war eine ziemliche Rachfrage nach schwarzem oder grauem Hafer, und wir können diesen Hafer um keiner folgenden Sigenschaften wichen empfehlen und find überzeugt, daß derselbe allgemeine Zufriedenheit geben wird. Er reift ungemein früh, steht auch auf sehr reichem und fettem Boben noch aufrecht, und nur heftige Windhirtme oder ein Eyclon (wie ein Kaamer im Juliois sich ausdrückt wird im find wurden, der Ertrag ist sehr bedeutend, durchschrift wird 80—95 Buschel per Acter hier in Wisconsin. Pect 30c, Buschel 95c, 5 Buschel \$4.50,

Berfte.

Mandscheuri. Diese neue Gerste wurde zuerst den Assen der burch die Verluchsstation in Ontario eingeführt und ist ohne Aweisel die beste der hierzulande dieher eingeführten Sorten und übertrisst sogar die mit Recht weit und breit bekannte Manschurd Serste. Die Mandscheuri ist eine sehr frühe hählige Serste, die in 80 bis 90 Tagen dom Säen reis ist; sie verstandet sich sehr frark, hat gutes, steises Stroh, die Aehren sind groß, die und gut ausgefüllt und ist es eine der besten Braugersten. Pros. henry dom der Staats-Universität in Wisconsin, welser der hie bekannte Manschund Serste auerst eingeführt erwartet das

der bie befannte Manfchury Gerfte querft eingeführt,erwartet bag biese neue Manbicheuri Gerste überall gebaut werben wird, so gut hat sich dieselbe bewährt. Preis : Peet 35c, Buschel \$1.10, 2½ Buschel \$2.50.

Buchweizen.

Silber Sull. Gine sehr verbesserte Sorte. Er ist länger in Blüthe, reift schneller und giebt zweimal sobiel aus als ber gewöhnliche; ber Kern ist runder und von einer schönen hellgrauen Karbe, das Mehl ist weiß und viel nahrhafter. Bed 30c, Buschel 11.00, Sad 21/2 Buschel 22.25.

3apanischer. Die Körner sind mehr wie dopbett so groß als die irgend einer anderen Sorte, und von tieser dunkelbrauner Karbe. Reist eine Woche früher wie Silver Hull, und liesert ein Mehl was nicht ihrertroffen werden fann. Bed 30c. Buschel

Farbe. Reift eine Woche rruger ibn Cache. Mehl bas nicht übertroffen werden fann. Beck 30c, Bufchel \$1.00, Sact 21/2 Bufchel \$2.25.

Gewöhnlicher. Bed 25c, Bufchel 90c.

flachs.

Russischer. Der meiste Flachs welcher gebaut wird ist nicht nur voll von Untraut, sondern auch ausgeartet. Ich habe da-her den Anssischen Flachs hier auf reinem Lande weiter gebaut, und ist mein Samen rein und frei don allen Untraut. Allen, welche sich frischen und reinen Samen aufchaffen wollen, kann ich dieje Sorte empfehlen. Bect 65c, Bu. \$2.15, 21/2 Bu. \$5.25.

Sommer-Roggen.

Wo Wintergetreibe bom Frost gelitten ober theilweise ansge-froren ift, pagt ber Sommerroggen ausgezeichnet als "entch erop", er giebt noch eine ficere und gute Ernte, wenn im Früh= jahr gefäet. Pect 35c, Bufchel \$1.25, 21/2 Bufchel \$3.00.

Johannis-Roggen. Diefer Roggen ift bekanntlich berennirend und giebt erft Grunfutter und dann im nächften Jahre Rörnerertrag. Ausfaat 1 Buf Bufchel \$1.60, 21/2 Bufchel \$3.70. Ausfaat 1 Buichel per Acter.

Wilder Reis.

Gine bon Enten und allem Waffergeflügel gern gefreffene Pflanze, die anch in Fischteichen gefaet, den jungen Fischen befonders Schut und Rahrung gewährt. Pfund 30c.

Spelz oder Speltweizen.

(Spiltz.) Unterscheibet sich vom Weizen durch die Spetzen, welche den Körnern sest anhängen. Nimmt mit weit schwächerem Boben wie Weizen sürlieb und ist bedeutend ertragericher. offemals bringt der Spelz höhere Erträge wie Gerste oder Hafer, dabei ist er von höherem Futterwerthe wie diese. Packet 10c, Pfund 30c, portosrei. Bei Fracht, Peck 60c, Buschel \$1.75.

Sommerweizen.

Improved Pedigree Blue Stem. Dakota gezogene Saak. Seit etwa 12 Jahren hat Mr. Hannes in Dakota angefangen biesen Weizen zu verbessern, indem er mehrere ausgemen wählte Aehren im Sarten pflanzte und sorgfältig behackte. Von diesem Weizen

wählte Aehren im Garten pflanzte und forgfältig behackte. Bon diesem Weizen weizen wurden wieder nur die besten Aehren zum Weiterpflanzen benutt die besten Aehren zum Weiterpflanzen benutt die die Ouantität groß genug war, um in größerem Maßfabe angebaut zu werden. Das Reslutat ist, daß der Weizen jeht nicht nur ganz sortenrein ift und man keine anderen Aehren im Felde dazwischen sindet, sondern auch weit ergiediger geworden ist; die Aehren sind ertwa zu fänger und dieter wie krüber und auftatt 2 oder 3 Reihen Körner sind es jest 4 Reihen über breit. Außerdem sind bie Körner auch von schoner zuch von schoner. Auch reitt der Weizen etwa 5 Tage früher wie anderer. Preis: Pect 50c, Buschel \$1.60, 2½ Buschel \$3.75

Taskatichewan Fife Sommerweizen. Als der Standard No. I. naard'ift dieser Weizen weithekannt geworden. Er ist der Weizen weithekannt geworden. Er ist der Wichelannt wie Mühlen, und in Minnesota derb das wohlbekannte "Minnesota Spring Wheat Patent" Mehl daraus gemacht, und nur eine Mühle in Minneapolis, auch zugleich die größte der Welt, verbraucht und mahlt 34.000 Busche in einen Tag oder 24 Stunden, don diesem Weizen. Dabet zeichnet sich dieser Weizen durch große Ergiedigteit aus, und giedt einen durchschultlichen Ertrag don 35 bis 40 Busche per Acre. Preis: Pect 40c, Buschel \$1.40, 2½ Buschel \$3.20.

Riesen Spörgel.

Liefert vortreistliches Grünjutter wie auch ein ausgezeichnetes, nahrhaftes Hen, welches sin Wilchtinke besonders geschätzt wird. Sehr geeignet um grün unterzupflügen zur Bessennung von leichtem sandigen Boden. Der Riesenspörgel zeichnet sich besonders durch ungemein raches Wachsthum aus. Bei etwas feuchtem Wetter kann das Feld schon i 6 bis 8 Wochen nach der Saat als Wiehstutter benugt werden. Aussaut 12 bis 16 Pfund per Acre. Ph. 15c, 5 Pfd. 60c, 10 Pfd. \$1.00, 100 Pfd. \$8.50.

Besenforn.

Berbeffertes Immergrün. Die beste Sorte um allgemein gebaut zu werden. Das Stroß ist sein und weich, lang und gerade; bleibt immer grün; wird nicht roth, daher besonders werthvoll. Pfd. 10c, 5 Pfd. 30c, 10 Pfd. 50c, 25 Pfd. \$1.10, 100 Pfd. \$4.00.

Sugar-Cane.

Carly Amber. Für Zucker und Syrup gebaut. Pfb. 5c, 10 Kfb. 45c, 100 Pfb. \$3.75.

Cupinen.

Getbe. Unmbertrefflich für Schafweibe. Gine ausgezeichnete Futterpflanze, besonders für Bodenverbesserung benutt. Pfb. 10c, 5 Pfb. 45c, 10 Pfb. 75c, 100 Pfb. \$7.25.

Wicken.

Ein herrliches Mast- und Pferdesutter, welches gewöhnlich im Gemenge mit Erbsen, Hafer und Roggen angebaut wird. Pfd. 10c, 5 Pfd., 35c, 25 Pfd. \$1.50, 100 Pfund \$5.50.

Sand-Wicken.

Eine hochgeschähte Futterpstanze von Deutschland. Die Sandvoide gebeiht in dem ärmsten Boden. Sechs Tonnen per Acker sind auf magerem Land geerntet worden und lieserten einen weiteren Schnitt sür Samen oder zum Grün unter zu pflügen. Widersteht Dürren. Siese und Kälte. Im Frühsahr gesäet, giebt es einen frühzeitigen und üpvigen Ertrag. Eignet sich vorzüglich zur Serbsteinsaat. Pso. 15c, 5 Pso. 70c, 10 Pso. \$1.30, 25 Pso. \$3.00, 100 Pso. \$10.00.

Sonnenblumen Samen.

"White Beauth" Sonnenblume. Gine neue, großblumige Sonnenblume, welche sich durch ungemein fräftigen Wuchst und große Ergiebigkeit auszeichnet. Es bildet sich nur ein großer Kopf und Stengel, daher ist sie o ergiebig daß bis zu 3000 Psund Samen per Acter gewonnen werden. Die Samenkörner selbst ind schneeweiß und don

und ichneeweiß und von großem Werth um Oel daraus zu gewinnen und für Futterzwecke. Packet 5c, 14 Pfund 15c, Pfund 40c, 5 Pfund \$1.75.

Große Russische Son: nublume. Befannt nub des Sonnenbunnen wohl über all, aber den Werth derseden hat man noch nicht schäßen gekent. Der Samen lieset zu nachst das billigite und beste Handerster, die Stengel liegen ein vortressliches Vrennmateinal, welches die holza. men Gegenden besonders gesichaft wird. Um 1 ure zu beoflanzen, sind 4 Pinnd wöhrtg. Pfd. 10c. 3 Pfd. 2cc. 10 Pfd. 70c.

Birse. (Millet.)

Preise der Veränderung des Marktes unterworfen.

Gewöhnliche. Sehr früh, breite Blätter. Pfd. 5c, 5 Hfd. 1oc, 10 Pfd. 25c, Buschel 90c.

Ungarisches Gras. Gebeiht sehr gut auf leichtem Boben. Psd. 5c, 5 Psd. 15c, 10 Psd. 25c, Buschel \$1.00.

Deutscher oder Golden Millet. Tieser wird am meisten angebaut und ist wohl am weitesten verbreitet. Wächst sehr doch und giebt große Erträge, von 3 bis 5 Zonnen zie gewinnen, säet man etwa ½ Buichel per Acre, weit sir Hoen 3 Veef bis 1 Buschel per Acre gesäet werden. Pid. 5c, 5 Pfd. 20c, 10 Pfd. 30c, Busches 11.10.

Deutscher ober Golden Millet.

Edweine-Millet. Wird in manchen Segenden im Großen angebaut und ist auch unter den Namen Mantoba-, Aussischer-, Broom korn- und California-Millet bekannt. 456. 5c, 5 \$16. 20c, 10 \$16. 30c, Buschef \$1.20.

Eine werthvolle einjahrige Futterpflange. Gie liefert riefige Mengen ausgezeichneten Futters und fann 3 bis 4 Mal geichnitbrengen unsgezeichneren Futters und tann 3 015 4 Mal geschniten werden. It besondere für die Sübstaaten zu empfehen. Rleine Bersuche damut sollte ein Jeder machen. 3 Pfund zum Arre. Man sie zur selben Zeit wie das Korn in Reihen von Zum Auftrand und 2 die 3 Körner auf jeden Fuß. Packet 5c, Unze 10c, 1/4 Pfd. 35c, 1 Pfd. \$1.25, 10 Pfd \$10.00.

Waldplatterbse.

(Lathyrus Sylvestris.) Borzügliche Futterpflanze. Das Erträgniß ift ein hobes, ber Nährwerth doppett so gut als bei Klee. Sie gebeiht auf jedem von Grundwasser freiem Boden, sandigem, steinigem, Geröllboden, Grauwacke. Thonschiefer, trockenstem und sterillstem Stedpenboden, Dünen, Felsenboden, usw., da wo feine andere Pstanze mehr gedeiht, steht sie, ohne des Regens dedurftig, im schönsten üpvigsten Flor. Nach dem zweiten Jahr bedarf sie nie mehr einer Pstege; die einzige Arbeit ist das Mahen, die Ernte. Paact de, Apid. 30c, Pst \$1.00, 10 Bfd. \$9.00.

Sachaline.

(Polygonum sachalinense.) Betreff bes Bobens ift Sachaline außerst anspruchstos, es gedeiht auf bem armsten Boden, wo sonst absolut nichts wächst, wenn nur die Möglichkeit voben, no jong adjoint niges wacht, went nut die voglichtett vorhanden ift, daß sie ihre Wurzeln einschlagen kann. Man siet den Samen in Killen und bedeckt ihn schwach. Und kann er in Mistbeeten vorgetrieben und dann nachher in Reihen von 2 Fuß Abstand ausgepstanzt werden. Packet 10c, Unze 35c, 34 Pid. \$4.00.

Auftralischer-Salzbusch.

(Atriplex semibaccata.) Diese aus Australien vor einigen Jahren hier eingesührte Futterpstanze ist mit Ersolg hier gezogen worden und solche welche sie versicht haben, rühmen sie sehr wegen ihrer großen Ertragsfähigteit, welche circa 20 Ionnen Grünfutter per Acre beträgt. Sie wächst besonders gut auf Alfaliboden, welcher Umstand sie zu einer sehr werthvollen Pflanze macht. Der Boden muß jorgsfältig vorbereitet werden und dann jest man jen Sommen in Sills oder man leat bin in ein und dann faet man ben Samen in Sills ober man legt ihn in ein Saatbeet ober Kifte und verpflanzt auf 8 bis 12 Zoll Abstand. Der Sannen darf nur leicht mit Erde bedeckt werden. Man gebrancht 4 Ungen Samen per Acre. Packet 10c, Unze 20c, 1/4 Kib. 65c, Kfd. \$2.25.

Für 25c verfende ich portofrei je ein Pactet Teofinte, Waldplatterbje, Sachaline und Auftrali= icher Salzbuich.

Dwarf Effer Raps.

Für Schafzüchter giebt es wohl feine werthvollere Pflanze wie biefen "Dwarf Gffer" Raps und wenn derfelbe erft mehr befannt ift, wird er auch mehr und allgemeiner angebaut werden. Von den großen Schafzüchtern hierzulande wird der Raps ichon in großem Magitabe angebaut und alle fagen, daß es das befte und billigste Schaffutter ist, und Schafe sowohl wie auch die Lämmer werden in furzer Zeit fett "und so schwer wie Blei" im Rapsfelde.

Die Rultur ift leicht und gedeiht der Raps auf allem Boden wo Korn wächst. Unfangs Juli wird das Land zur Saat zurecht gemacht und der Samen mittelst einer Gartendrill wie die Planet jr., in Reihen die 3 Fuß apart find, eingedrillt, und find 21/2 Efund Samen per Acker nöthig. Der Samen keimt schnell und Find Samen per Acter noting. Der Samen teimt immell und bie jungen Pstanzen sollten Ansanz gehackt und vom Untraut reingehalten werden. Schon Ende Sevtember sind die Pstanzen so hoch, daß der Boden ganz davon bedeckt ist, und liefern nun ein höchst werthvolles Finter sur Schafe und Lämmer. Der Samen kann auch breitwürfig auf reinem Lande gefäet werden und braucht man dann 5 bis 6 Psind Samen per Acter und säet icon im Mai, und wenn die Pflangen bann genügend entwickelt find. wird daß Rapsfeld abgeweidet oder auch abgemäht; der Nachwuchs wird dann im Serbst nochmals in derfelben Weise

Einen anderen großen Rugen hat der Raps nm feines ichnellen Wachsthums willen und daß er noch spat im Commer gesaet werden fann. Wenn daher aus irgend einem Umstande auf einem Stück Land die Frühjahrä-Einfaat sehlgeschlagen hat, fann man noch Raps als sogenannten "eated erop" auf bas Land säen und so noch eine ausgezeichnete Futter-Ernte gewinnen. Pfb. 15c, 5 Pfd. 50c, 10 Pfd. 75c, 25 Pfd. \$1.75, 100 Pfd. \$6.50.

Rübsen.

er. Zur Delgewinnung, Grünfutter und Pfd. 10c, 5 Pfd. 45c, 10 Pfd. 75c, 25 Pfd. Rübjen, Commer. 3um Unterpflügen. \$1.75, 100 Pfd. \$6.50.

feld-Erbsen.

Preise der Beränderung des Marttes unterworfen.

Beife Canada. Liefern ungemein biel und werthvolles Grunfutter. Wenn reif und geschrotet machen Erbfen ein nahr= hafteres Futter als Korn. Wenn grun untergepflügt, bereicheren fie ben Boben in hohem Grabe. Pect 40c, Bu. \$1.25, 2 Bu. oder mehr \$1.15 per Bu.

Scotch Beauty. Die beste grune Felberbse. Bed 45c, Bu. \$1.35, 2 Bu. ober mehr \$1.25 per Bu.

28hippoorwill Com Beas. Wegen ihrer Bobenbereichernden Eigenschaften besonders geeignet um als Gründunger angebaut zu werden. Grün geschnitten werden die Pstanzen bom Bieh gern gefressen und wenn die reisen Erbsen geschrotet werden, machen fie ein ausgezeichnetes Futter. Bfd. 10c, 5 Bfd. 35c, 10 Pfd. 60c, 25 Pfd. \$1.25, 100 Pfd. \$4.00.

feld-Bohnen.

Bofton Bea oder Navn. Sandgefammelt. Quart 15c, Bed \$1.00, Bufchel \$3.50.

Linsen.

Schte deutsche importirte. Gine wohlschnedende Hülsenfrucht, wird wie die Erbse kultivirt. Anssaat 40 bis 50 Pfd. her Acker. Preis ver Pfd. 15c, 5 Pfd. 65c, 10 Pfd. \$1.10, 25 Pfd. \$2.50, 100

feldmohn.

Blauer, zur Bereitung don Mohnnubeln, Mohnfuchen und zum Berfauf an Druggiften. Kultur: Der Mohn berlangt sorgfältig dorbereiteten Boden und frühe Aussaat (Aufangs April) breitwürfig fehr dünn, etwa l Pfund per Acker zu jaen; wird am häufigsten in Reihen 1 Fuß Abstand, gebaut und mit dem Gartenfultur bearbeitet. Man fann dom Acker 8 die 10 Buschel Samen gewinnen. Unze 5c, 14 Pfd. 10c, 1 Pfd. 25c, 5 Pfd. \$1.00.

Kaffir Korn.

Beißes Raffir : Rorn. Die langen Rifpen find gut gefüllt mit weißen Körnern, welches ein herrliches Wehl liefern. Die Rifpen wachfen von 10 bis 12 Joll lang und das Produkt an Körnern wird im Durchschnitt 60 Buschel zum Acter sein. Pfd. 6c, 10 Bid, 40c, 100 Pfd. \$3.00.

Rothes Raffir : Rorn. Wächft höher als das weiße Raffir-Rorn und reift fruber, die Stengel find ichlanter, febr faftig und blätterreich. Die langen ichmalen Rifpen machfen aufrecht und find tompatt. Widerfteht lange Durren und gebeiht gut auf magerem Land. Pfd. 8c, 10 Pfd. 50c, 100 Pfd. \$3.50.

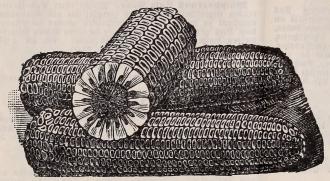

Raffir=Rorn.

Urtischocken.

In einzelnen Gegenden, wo diefelben ichon befannt find, haben fich die Artischocken als billiges dabei gefundes und außerft Buträgliches Futtermittel für Schweine erwiesen. Der Ertrag ist riefig, bon 400 bis 1000 Buschel per Acker, und dabei wird man der Mühe des Ertens enthoben, weil die Schweine dies selber beforgen können. Auch können die Artischocken über Winter ruhig draußen bleiben im Lande, weil ihnen Frost nichts schadet. Die Kultur ift sehr leicht. Am besten wählt man dazu ein Stück Band, wo man fie mehrere Jahre laffen fann, weil, wenn im erften Sahre gepflangt, fie immer wieder auffommen im Fruhjahr und in ben folgenden Jahren feiner weiteren Rultur beburfen. Die Anollen werden wie Rartoffeln gu fleinen Stucken nut einem Ange geschnitten und in Reihen, welche etwa 3½ Jußadarf sind, und etwa 2 Zoll tief gelegt, ebenso wie man Kartossen psanzt sind, und etwa 2 Zoll tief gelegt, ebenso wie man Kartossen psanzt und behandelt sie dann auch im ersten Sommer ebenso. Im derhst, ein paar Wochen nachdem die Blüthen abgesalken sind. lätzt man die Schweine ind Feld, und die besorgen dann die Ernte, indem sie die Knollen aus der Erde wühlen und gierig verzehren Wo die Witterung es gestattet und der Boden nicht febr friert, können die Schweine den ganzen Winter darnach wühlen, sonst lägt man sie nur im Herbst, dis der Boden zufriert und im Frühja r, wenn der Froft aus dem Boden ift, dis zu der Zeit wo fie zu wachsen anfangen, darin laufen. Preis: Per 45c, Bu. \$1.35. Jag \$3.50. Mit einem Jag fann man einen ganzen Acter bepflanzen.

Nördlich gezogenes Samenkorn.

Es ift eine allbekannte Thatsache, daß Korn, welches im Norden gepstanzt wird und zur Reise gelangt, viel früher reift wie diefelben Sorten, welche weiter südlich gepstanzt werden. Samenkorn, welches hier gut ausreift, wird überall, wo immer es auch gepstanzt wird, nicht bios stüher reisen, sondern sich auch durch stärkeres Wachsthum und in anderer Hinst auszeichnen; aus diesem Grunde allein wird es sich sier beza lein, diese Jahr das Samenkorn zu wechseln und unsere bewährten und auf ihre Keimfähigkeit geprüften Sorten zu pstanzen. Wir verwenden stets die größte Sorgsalt auf echtes und reines Saatkorn und nur die allerbesten und größten Kolben werden für Samenkorn berwendet.

Pride of the North,

Pride of the North. Eine berühmte frühe Sorte von gelbem Zahnkorn. Die Vorzüge diese Weischtorns können nicht gewürdigt werden, bevor man aufmerkfan den großen. Ertrag und den kleinen Prozentsaß der Kolden deim entkörnten Mais demerkt. Der Buschel von 70 Piund Alehren wird 60 bis 65 Piund an Körnern liefern. Peck, 35c; Buschel, 81.25.

**Angel of Midnight. Ein extra frühes gelbes Flinktorn, 8-rethige Art. Die Alehre sit von volksommener Form, 10 bis 12 Zolk tang. Reihen gerade und eben. Die Stengel sind von mittlerer Größe. Peck, 35c; Buschel, \$1.25.

Roß' Golden Beauth. Dies ist eine nene Sorte gelben Zahnkorns, welche frühzeitig reift, bon trässignen Wachsthum ist und eine Höhe von 10 Fus erreicht. Fast jeder Stamm liesert zwei schöne Aehren von vollkommener Form, 16 Reihen enthaltend, welche dis zum Ende oss Koldens ausfüllen, Hat einen kleine nen Kolden, ist leicht entförnt und übertrisst alle anseren in Kröbe Merken und Kerishekeit deren in Größe, Erscheinung und Ergiebigfeit. Bect. 45c. Buschel, \$1.50. **Bisconsn White Dent.** Das beste weiße Zahntorn sur dies nördliche Breite. 16 bis 20

Reihen, fleine Rolben und große Rorner. Bed,

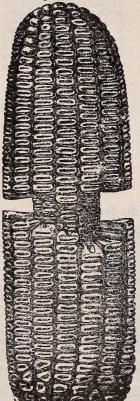

Retigen, tiene solden am gegeben Dent."
45c; Buschet, \$1.50.

Neues "White Cap Pellow Dent."
Gine noch neue aber werthpolle Sorte, die über-Kenes "Abhite Cap Yellow Tent."
Eine noch neue aber werthvolle Sorte, die überall gebant werden kann. Es wurde zuerst in Herren von der Verleiche Gereiche gebendt, hat sich seitbem in allen Gegenden gut bewährt und eignet sich eben so gut hier in Wisconsin wie für Missouri. Auf magerem leichtem Boden bringt es größere Erträge wie andere Sorten. Die Aehren sind groß, mit zahlreichen Reihen Krner, gut ausgefüllt. Die Körner sind außen weiß, inwendig nach den "Cobs" zu gelb, wel-ches denselben eine schöne Farbe und dem Korn den Kannen giebt. Es wächst schnel und frästig, wird 7 dis 9 kuß hol, erist no dis Sagen. Ju Gegenden, welche öster don Arocken-heit heimgesucht werden, oder wo nur leichter, magerer Boden ist, ist dies das beste geeignetste Korn. Peck, 40c; Buschel, \$1.40.

***Red Cob Ensilage Corn. Tiese hochge-schätzte Art kanne mussolsten werden als das am reichlichsten ergiedige Ensilage Korn in Kultur, 50 dis 75 Tonnen per Acker ergebend. Es ist gründlich geprüst worden in allen Milcherei-Gegenden des Landes mit den besten Ersolgen. Es ist ein weißes Zahn-Korn don bedeu-tender (Kröße und dieselen) aus einen

Segenden des Kandes mit den besten Exfolgen. Es ist ein rein weißes Jahn-Korn don bedeutender Größe und hübschen Andre don bedeutender Größe und hübschen, an einem rothen Kolben wachsend, das Futter ist süß, zart, saftig und enthält mehr Rährwerth als trgend eine andere Art. Es wächst 13 bis 14 Kuß hoch, nimmt sesten Kalt im Boden, sieht gut aufrecht und leistet Stürmen aller Art Widerfald in bemerkenswerthem Grade. Peck, 200: Ausgest 1981.

Rog' Golben Beauth Corn.
30c; Buschel, 90c.
Grünsutter für Milchtühe, da es süger und nahrhafter ist, und lieber gefressen wird, als Futter von Feldtorn. Peck, 35c; Buschel, \$1.25.

ENSILAGE CORN-

Nördlich gezogene Saatkartoffeln.

Ich verwende ganz besondere Ausmerksamkeit auf das Anbauen von Saatkartoffeln und meine hier in Wisconfin gebauten Kartoffeln zeichnen sich vor allen anderen durch schnelles Wachsthum und Entwickelung, sowie auch durch gesunden, kräftigen Wuchs aus. Alle Kartoffeln werden, sobald das Wetter es erlaubt, abgeschickt.

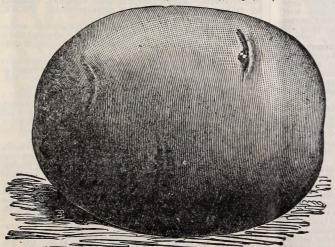

fartoffel in fich berbunden. Tropbem es eine Frühfartoffel ift, halt sie sich boch bis spät zum Frühjahr und als gute Sveisletartoffel läßt sie nichts zu wünschen übrig. Unier Saatgut dieser ausgezeichneten Frühfartoffel ist sorgfältig gezogen, sortenecht, von ichöner Form, glatt und schorffrei. Pect 40c, Busches 1.25, Faß \$3.25.

Thoroughbred.

Dieses ist eine neue vorzügliche Frühfartoffel, welche aus Samen der "Carlh Nose gezüchtet und dieser im Aussehen auch ähnlich ist, aber in der Qualität und in Ergiebigkeit ist sie dieser wert, weit überlegen. Die Knollen werden groß, von angenehmer egaler; länglicher Form und hübicher röthlicher Farbe und sind der som und des seinen Aussehen halber in jedem Markt leicht verfäuslich. Die Augen find regelekt und flock des Ausseh ist fein weiter sehens halber in jedem Markt leicht verkäuflich. Die Augen sind regelmäßig angesett und klach; das Fleich ist sein weiß und von gutem, reinen Geschmack. Sie ist von recht kräftigem Wuchs nu entwickelt gute Knollen und kräftiges Kraut zu gleicher Zeit. Sie gebeiht überall auf jedem Boden und in jeder Rage und ist ungünstigen Witterungs-Verhältnissen gegenüber ungemein widerstandsfähig. Si ist eine neue ertra frühe Frühkartossel und reist noch um einige Tage früher wie die "Carly Kose". Jeder Farmer und Kartosselzächer sollte wenigstens so viel davon beziehen, um Pflanzfartosseln genug davon sürs nächste Jahr zu haben. Preis: Bect 45c, Busches 11.40. Faß \$3.50.

Die "freeman".

Von allen neuen, fürzlich eingeführten Sorten ist wohl teine so ichnell allgemein bekannt und verbreitet worden, als wie die "Freeman", und wo sie noch nicht eingeführt ist, sollte man diese ausgezeichnete Speisekartossel wenigstens versusen. Sie ist von länglich runder, etwas abgeslachter Form, hat eine gelblich weiße, sein genette Schale, seines weißes Fleisch und ist von vorzüglichem Wohlgeschmack. Von der Zeit an, wenn sie garg sind wie Hühnereier, können sie schon gebraucht werden, platzen beim kochen auf und find sehr mehlreich. Sie ist sehr ertragreich und widerstandssädig gegen Krankheit, reist mittelspüh und hält sich, dis es wieder neue Kartosseln im nächsten Jahre

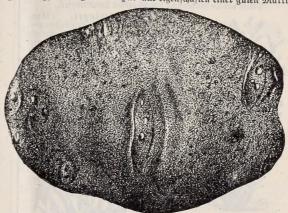

Rural New Porfer, No. 2.

Signal.

Die beste frühe Kartoffel, welche je eingeführt ward. Regelmähig don Form, Haut den schöner heller Fleischfarde, glatt im Außeren, sehr hübfich und flar, was ihr ein schönes Aussehen verleigt, sehr früh, von wunderbar träftigem Wachsthum und vorzüglicher Qualität. Ihr auffallenster Sharafter ist ihr fräftiges Wachsthum. Beziglich de Ertrages glaube ich nicht, daß sie den einer anderen so frühen Sorte übertroffen wird. Bect, 35c; Bufchel, \$1.25; Fag, \$3.25.

Extra frühe Obio.

Die beste aller frühen Sorten. Ist allgemein bekannt und wird in großem Magstabe angebaut. Hat alle eigenschaften einer guten Markt-

Thoroughbred.

giebt. Obicon die "Freeman" nicht fo ergiebig ift, als we manche andere Sorten Frühkartoffeln, kann fie dennoch nicht genug als gute Speifekartoffel empfohlen werden, und wir find fest davon überzeugt, daß Zeber damit zufrieden fein wird. Peck 35c, Buschel \$1.20, Faß \$2.90.

Rural Rem Dorter Ro. 2. Gine ber meift einträglich-Mital New Jorter Ab. 2. Sine der nieht eintruging-ten Sorten. Sroß und ungewöhnlich glatt, mit wenige, slache Augen; Haut und Fleisch sind weiß. Qualität vorzüglich. Mittelspät. Pec 35c, Buschel \$1.25, Faß \$3.25.

Sarman Ro. 3. Diese vortreffliche Sorte liefert ohne Zweifel die größten Erträge von allen Sorten, welche bis jest eingeführt wurden. Die Knollen find fast alle von egaler Größe

singeführt wurden. Die Knollen sind fast alle von egaler Größe und von der schönlten Form und wachsen im Hügel bicht zusammen. Sie reift spät und hält sich, ohne zu keimen, dis spät im Frühjadr. Fleisch und Schale, sind schön weiß und sie kocht sich schön mehltg und ist von vorzüglichem Wohlgeschmack. Trosdem die Knollen ungeheuer groß werden, haben wir noch keine gesunden, welche habs doer holzig werden, sondern sie knollen ungeheuer groß werden, haben wir noch keine gesunden, welche habs doer holzig werden, iondern sie kocht sich sie nehlig durch und durch, ohne daß sie sich mehlig durch und durch, ohne daß sie sie den übergroßen, gröberen Sorten der Fall ist Insolge ihrer kolossamicklich wie es dei den übergroßen, gröberen Sorten der Fall ist Insolge ihrer kolossamicklich und siehe das daß haupt-Warkstatossel einnehmen. Sie ist ungemein widerstandskähig gegen Witterungseinstälise und biesert immer die größten Erträge und wird nie dom Kartosselschaft des terungseinstüffe und liesert immer die größten Erträge und wird nie vom Kartosselsson zu das den schwer gedüngt wird. Die Knollen setzen schwar gedüngt wird. Die Knollen setzen schwar aber erst spät, so das sie Selegenheit haben, recht aroft aroft größt, so das sie Selegenheit haben, recht aroft größt, so das sie Selegenheit haben, recht aroft größten Erträgen Sorte unzweiselhaft viel Sele machen, wegen ihres hohen Ertrages und wegen ihrer vorziglischen Sigenschaften, um welchen Willen sie sich berkauft. Wir haben einen großen Vorrath schwer und echter Carman Ro. 3 und offeriren bieselben zu einem sehr niedrigen Preise. Ped 45c, Buschel \$1.40, Faß \$3.50. Faß \$3.50.

Gras= und Klee=Sämereien.

Um guten Erfolg in der Farmerei zu haben, ift es vor allen Dingen nötig, gute Wiesen und Weiben anzulegen, denn: Mehr Gras—mehr Futter; mehr Futter—mehr Wieh und mehr Milch; mehr Milch—mehr Geld; und, mehr Dünger—mehr Getreide; mehr Getreide—mehr Geld. Zur Anlage von guten Dauerwiesen und Dauerweiden ist aber guter, reiner, frischer und feimfähiger Samen ersorderlich, und wir haben es uns schon seit Jahren zur Aufgabe gemacht, solchen zu liesern. Durch Einführung anderere Grasarten dem Klee und Timothy ist es uns gelungen Wiesen und Weiden der der der und Timothy sind gut, und liesern unter günstigen Umständen gute Erträge, aber sie sind nicht ausdauernd und widerstandsfähig genug gegen die Einstüsse ung und können weder kahles Abweiden noch strenge kalte Winter vertragen, was wohl ein Jeder weiß. Doch sollte besonders Klee auf keiner Karm sehlen, weiler solche hoherreiche Gigenschoften bestätt. auf feiner Farm fehlen, weil er folche bodenreiche Eigenschaften besitt.

Benuti man aber anstatt Klee und Timothy allein eine dem Boden passende Aleegrasmischung, so entwickelt sich diese bei günstiger Witterung gleich im ersten Jahr schon soweit, um einen Schnitt und reichliches Futter zu geben, und ist damit auch allem Futtermangel für die folgenden Jahre abgeholfen.—Ist mal erft ein guter Stand erzielt, was mit unseren Kleegrasmischungen gar leicht ist, so ist auch ein Ersolg für die Dauer gesichert, denn alle Gräser, von und für Dauerwiesen und Dauerweiden benust, sind sehr wider-standsächig gegen den Einsluß der Witterung und halten lange aus. Die Gräser zeichnen sich rurch ein ichnelkes, üvviges Wachstum und durch eine trästige Bewurzelung aus, wodurch sie um stande sind, selbst lang anhaltender Trockenheit und den strengsten Winter

Preise ber Beränderung des Marttes unterworfen.

1. Wiesenschwingel. (Meadow Fescue) Festuca pratensis. (Mea-Gines der verbreiteften und gleichzeitig auch eines der befferen und wichtigeren Grafer und wegen feiner Ausbauer als Wiefen= und Weide=Pflange ift es fehr geschätzt, sich allen Bodenarten anzu-passen. Pfd. 15c, Buschel \$1.70, 100 Pfd. \$11.50.

Anaulgras.

Wiesenichwingel.

Englisches Rai: (Perennial Rye 5. Englisches gras. Grass.) Lolium perenne. Gut im Gemengen mit anderen Grafern für Rafen, Wiefe ober Weide. Pfd. 10c, Bufchel \$1.20,

100 Pfb. \$6.50.
6. Italian Rye Grass.) olium Italicum. Als ein sehr schnell wachsendes Gras befonders werthvoll, entwickelt sich gleich im ersten Jahre nach der Ausfaat fo ichnell und

Frangösisches Raigras üppig, baßes jogleich von allen Gräfern die höchsten Ertrage liefert. Auch fehr bazu geeignet, in die ausgewinterten Kleestellen zu jaen, um sie zu bebecken. Pfd. 10c, Buichel \$1.25, 100 Pfd. \$7.50.

üppigften entwickelt.

Ich mache noch darauf aufmerksam, daß mein Kentucky Blue Grass Samen nicht mit dem von vielen Händlern ver-Blue Grass Samen nicht mit vein von verein genochte betäuften billigen Canada Blue Gkass verglichen werden soll, welches ich zunächt unter Ro. 8 angeführt habe. Doppelt gereinigter Samen pro Pfd. 15c, Buschel \$1.70, 100 Pfd. \$10.00.

8. Canada Blue Gras. Dieser in Canada gezogene Blue Gras Samen ist ungemein wiederstandssähig gegen Witterungsschaft welcher bei Buschen gehor grade Arnsenheit im

Einflüsse wie strenge kalte Winter ober große Trockenheit im Sommer. Der Samen ist weit billiger als das oben beschrie-bene Kentucky Blue Grass. Psb. 12c, Buschel \$1.30, 100 Pfd. \$7.25.

9. Rauhes Rispengras. (Rough stalked Meadow)
Poatrivialis. Treibt ungemein viele Ausläuser, entwidelt sich frästig und wird vom Bieh gerne gesressen. Psid. 30c, Buschel \$4.25, 100 Psid. \$28.00.

10. Fioringras. (Creeding Bent.) Agrostis stolonisera. Wünschenswerth in Mischungen für Kasen oder Wiese und gedeibt am bestem auf seuchtem Land. Psid. 18c, Buschel \$2.25.100 Vid. \$15.75

und gedeiht am bestem aus senguem cance. \$2.25, 100 Pfd. \$15.75.

11. Rohrschwingel. (Tall Fescue.) Fescue elatior. In Bezug auf Klima und Boden macht er feine großen Anspreiche, ein seuchter Standort ist ihm besonders lieb. Pfd. 20c. Buschel \$2.65, 100 Pfd. \$18.00.

12. Wiesen: Inchessional. (Meadow Foxtail.)

Alojec rus pra'ensis Gehört zu den besten und vortresslichten Gröfern. Bevorzugt einen reichen, frischen und setten Wiesenboden, liefert aber auf höher gelegenen Boden noch einen guten Ertrag. Sehr ausdanernd. Psb. 25e, Buschel \$3.00, 100

Wiesenboden, liefert aber auf höher gelegenen Boden noch einen guten Ertrag. Sehr ausdanernd. Pfd. 25c, Buschef \$3.00, 100 Pfd. \$21.00.

13. Quellichwaden. (Water Meadow.) Glyceira aquatica Wächst fehr frästig, wird 4 bis 5 Fuß hoch und liefert zwar grobes aber nahrhaftes Hen in großen Massen. Hiefert zwar grobes aber nahrhaftes Hen in großen Massen. Hiefer zwar grobes aber nahrhaftes Hen in großen Massen. Hind sehr geeignet. Psc. 25c, Buschef \$3.00, 100 Pfd. \$20.00.

14. Schafschwingel. (Sheep Fescue.) Festuca ovina. Ausgezeichnet für Schasweibe auf armen trockenen Boben, verträgt lang anhaltende Dürren. Pfd. 15c, Buschel \$1.95, 100 Pfd. \$13.50.

15. Kammgras. (Crested Dogstail.) Cyrosopus

15. Kammgras. (Crested Dogstail.) Cyrosorus eristatus. Widersteht der größten Dürre. Ein vorzügliches Kasen und Weidegras. Pfd. 30c, Buschel \$4.25, 100 Pfd.

16. Goldhafer. (Yellow Oat Grass.) Avena flave-cens. Gedeiht auf hoben, trockenen Bobenarten; jum Un-ban für sich allein nicht geeignet, aber fehr werthvoll in Mijchungen. Hat guten Nachwuchs. Pfd. 70c, Buschel \$9.50, 100 Pfd. \$65.00.

17. Spätes Rispengras. (Fowl Meadow.) Poa serotina. Da biejes Gras ein hochwachsendes Gras ift, so berwendet man es weniger zu Weidenanlagen als zum schneiden, diefes Rifpengras fann jede Ralte ertragen und hatt fich bis jum Winter grun und frisch, darf aber nicht an Orte gu jtenen tom= men die lange unter Waffer find. Pfd. 20c, Buschel \$2.60, 100 Pfd. \$17.00.

18. Ungarische oder Ricsentrespe. (Awnless Brome Grass.) Bromus Inermis. Das beste Graß für

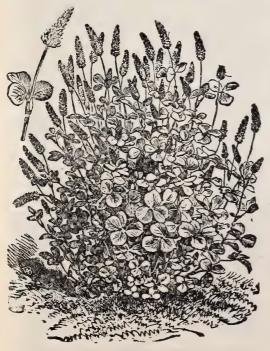

Ungarische Trespe.

alle Bodenarten, gleich gut geeignet für den heißen Süden als wie für bie nördlichen Staaten. Es ift vollständig ausdauernd und liefert unge= mein viel Futter der besten Qualität, einerlei ob es für Heu gemäht, oder als Weide benutzt wird. Wäch ft außerft ichnell, bildet einen dich= ten Sorft garter Blätter und bleibt länger grün als irgend eine andere Grasart. Wird 2 bis 4 Jug hoch. Diefes Gras tann nicht genug empfoh= len werden und follte je-der Karmer einen Berfuch damit machen in diefem Jahre. Pfd. 20c, Buichel Jahre. Pfd. 20c, But \$2.25, 100 Pfd. \$14.75,

19. Sainrifpengras. (Wood Mead-ow.) Poa nemoralis. Unentbehrlich für Weiben auf beschattetem Lande oder im Walde. Pfd. 35c, Bufchel \$4.65, 100 Pfd.

20. Timothy. Phleum pratense. Bekaunt. Marktspreis etwa: Pfd. 10c, Peck 85c, Bujchel \$3.15, 100 Pfd. \$6.75.

Incarnat Alee.

21. Rother Alec. (Red Clover.) Trifolium pratense. Gewöhnlicher. Preis steigt und fällt, etwa: Psb. 15c, Ped \$1.75, Buschel \$6.50, 100 Psb. \$10.75, Trifolium pra-

22. Riefentlee, (Mammoth Clover.) pra ense per nne. Dieser Riee wächst 5-6 Fuß hoch, findet hauptsächlich durch Unterpflügen jum Gründungen Berwen-dung. Preis wechsett, etwa: Pfd. 15c, Peck \$1.85, Buschel \$6.75, 100 Bid. \$11.00.

23. Schlesischer Rothflee. (Silesian Clover.) Zeichnet sich befonders durch seine große Widerstandssähigkeit gegen auhattende Trockenheit aus, erträgt auch größere Rätte ohne auszustrieren. Es ist dies eine der besten Riecarten und besonders geeignet um Samen davon zu ziehen. Pfd. 15c, Beck \$1.95, Buschel \$7.00, 100 Pfd. \$11.50.

24. Beiger Rice. (White Clover.) Trifolum re-pens Steintfee. Gin fleiner friechender, perennirender Rieg, welcher mit saft allen Bodenarten Bortleb nimmt. Unentbeho-lich für Dauerweiden und Hasenpläge. Pid. 25c, Bed \$2.50, Buichel \$9.25.

(Seradella.) Ornithopus sativus. 25. Serabella. Borgüglich auf leichtem trodenen Boben. Pfb. 12c, 10 Bfb.

\$1.00, 100 Bfd. \$9.00:

Incarnat: oder denticher Riefen:Rlee. (Crimson Clover.) Trifolium incarnatum. Der einzige Rlee welcher im ersten Jahre volle Ernte giebt. Im April gesäet, fann er bereits Ende Juni geschnitten werden. Blüht Scharlachroth, widersteht der Dürre vorzüglich und kommt auf irgend einem Boden fort. Wächst fehr üppig und wird auch zum Un= terpflügen zur Berbefferung des Acters verwandt. Aussaat 10 bis 15 Pfund per Acter. Pfd. 15c, Peck \$1.75, Buschel \$6.40, 100 Bid: \$10.00.

27. Sand-Luzerne. Für fehr leichten sandigen Boben ift die Sand-Luzerne geeignet, wo fie nicht nur noch ansehnliche Futter-Grträge liefert, sondern auch anhaltende Trockenheit gut erträgt und sehr lange ausdauert. Pfd. 25c, Peck \$3.00, Buschel \$11.50, 100 Bfb. \$18.50.

28. Schwedischer: oder Bastard : Alee. (Alsike) Widersteht dem Winter gut und Tritolium hytriaum.

gedeiht auf fast allen Bodenarten. Blüth= en rund, fleischfarbig und wohlriechend. Pfd. 20c, Pecf \$2.90, Buschel \$11.00, 100 \$18.00, Afd. refp. Diarttpreis.

29. Efparfette. (Saintoin) Onobrychis sativa. Auf falkartigen fowie auch leichteren Boden= arten, gebeiht Gf-parfette hauptfächlich, giebt große Heuernten und hält 8 bis 10 Jahre aus. Pfd. 12c, 25fd. \$8.00.

30. Lugerne.

(Luzerne.)

Medicago sativa. Importirte deutsche Lugerne ift ein perendeutsche nirender, ichnell machfender Riee, welcher unter gunftigen Ber= hältnissen vier Mal in einem Jahre ge= ichnitten werden fann. Lugerne ber= langt einen tiefdurch= acterten Boden mit durchlagbaren Unter= grund, da die Wur= geln fehr tief eindringen, fann weder Durre noch Frost ihn beein-flussen. Er tre i b t unter bem Schnee und fann bereits im Mai gemäht werden. Ausfaat 10-15 Pfd. per Acter. Pfd. 15c, Beck \$2.00, Buichel \$7.75, 100 Bfb. \$12.00.

Luzerne. -

Kleegrasmischungen für Dauerwiesen und Dauerweiden.

Bei der Auswahl und Zusammenstellung dieser Grasmischungen versahren wir mit der größten Sorgsalt und mit Rücksicht auf die Sigenschaften der Gräßter und den Zweck, für welchen dieselben benutt werden sollen. Wir haben es uns immer zur Aufgade gemacht, das Beste zu so billigem Preise wie möglich zu liesern und guten, reinen Samen und Kleegrasmischungen kann man nirgends billiger kaufen, wohl aber rückschsichs zusammengestellte Grasmischungen zu sehr hohen Preisen.

Die geeignetste Zeit zum Söen von Aleegrasmischungen ist um Frühjahr, und die besten Exfolge wurden erzielt, wenn Gras oder Alee ans den letzten Schnee gesäet wurden. Weil Grassamen sehr ein ikt. sollte er nur sehr leicht bedeckt werden und nicht tieser wie 14 bis 1/2 Zoll in die Erde kommen. Vielsach ist man der Ansicht, der Grassamen sollte mit Getreide gesäet werden, damit die jungen Pflanzen Schut und Schatten haben. Es ist aber Thatsache, daß die jungen Grasspsanzen mehr darunter leiden, als wie geschützt werden, weil das Getreide in der heißesten Jahreszeit gemäht wird, und gar nicht selten verden die zarten, vorher an Schatten gewöhnten jungen Grasspsanzen mit einem Male von der heißen Sonne versengt. Wir haben siets bessere ersolge zu verzeichnen gehabt, wenn Grassamen sür sich allein, ohne Decksucht, gesäet wurde, und zahlreiche Kunden bestärworten in ihren Briesen die Einstaat sir sich allein ebenfalls, odwohl diele auch ganz ausgezeichnete Ersolge mit, der Einsach ner Verfrucht zu verzeichnen haben.

Bet jeder Aleegrasmischung nennen wir die per Acer nöthige Aussaatmenge, welche in allen Fällen zureichend ist. wie wir durch angestellte Bersuche festigeftellt haben. Bir find darauf bedacht, für Weien nur hochwachsende oder Mähegräfer auszuwählen, welche jo viel wie möglich zu gleicher Zeit reisen, für Weiden hingegen stert, welche einen dichten Kasen bilden, und dom frühen Frühjahr dis zum späten herbst grün bleiben und dem Bieh den ganzen Sommer hindurch Futter liefern.

Insolge der durchweg höheren Preise der Graß- und Aleesamereien waren wir auch genöthigt, die Preise sür unsere Aleegrasmischungen höber zu machen, da wir nur den besten Samen hiersür benußen, und die Ersolge, welche überall mit unseren Kleegrasmischungen erzielt wurden, sind der beste Beweis hiersür. Es kostet außerdem wenig oder gar nicht mehr, unsere sorgsältig außgewählten Kleegrasmischungen austatt Klee und Timothy zu säen und wenn man die Borzüge der Kleegrasmischungen für Anlage von Dauerwiesen in Betracht zieht, find dieselben am Billigften.

Mifdungen gur Anlage von Dauerwiefen.

Den verschiedenen Bodenarten wie auch den Gigenfchaften ber Grafer entsprechend ausgewählt und zusammengestellt.

1. Für trodene, hoch gelegene Flächen, auf leichtem Boben: Knaulgras,

Wiefenrifpengras, Englisches Raigras, Französisches Kaigras, Riefenklee und Rothklee,

18 Pfd. per Acter zu 10c per Pfund, \$1.80, 100 Pfund für \$8.75.

Für trodene hochgelegene Flächen, auf fcmerem Boben: Französisches Raigras, Goldhafer,

Rauhes Kispengras, Italienisches Kaigras, Luzerne und Rothtlee. 16 Pfund, per Acter zu 12c per Pfund, \$1.92, 100 Pfund für

3. Für feuchte Flächen mit fruchtbarem Boden: Wiefenfuchsschwanz,

Wiesenschwingel, Fioringras, Rauhes Rifpengras, Schwedischer Alee,

16 Pfund per Acter zu 121/2c per Pfund, \$2.00; 100 Pfund \$11.00.

Für zeitweise überschwemmten Boden:

Rajenstraukaras, Rohrschwingel, Fioringras, Rauhes Kispengras, Schwedischer Klee,

18 Pfund per Acter gu 121/2c per Pfund \$2.25; 100 Pfund \$11.25.

5. Für sumpfiges Marichland zum Ueberfäen: Quelichwadengras, 10 Riund per Acte

10 Pfund per Acter zu 18c per Rohrschwingel Bfund \$1.80; 100 Bfund \$16.00. Rafenitrauggras.

Mijdungen zur Anlage von Dauerweiden.

Für die verschiedenen Bodenarten find die folgenden Dift. ungen befonders geeignet:

Für trodene, hochgelegene Flächen, auf leichtem Boben:

Wiesenschwingel, Wiefenrifpengras, Knaulgras, Englisches Raigras, Goldhafer,

18 Pfund per Acter gu 10c per Pfund \$1.80; 100 Pfund für \$8.75.

Für trodene, hochgelegene Flächen, auf ichwerem Boben

Wiefenfuchsschwang, Raubes Rifpengras, Anaulgras, Frangofisches Raigras, Englisches Raigras, Wiefenrifpengras, Lugerne und Weißtlee,

Rothflee und Weißtlee,

18 Pfund per Ader gu 10c per Pfund \$1.80: 100 Pfund für \$8.75.

Für feuchte Flächen mit fruchtbarem Boben :

Rauhes Kispenaras, Rafenftrauggras, Fioringras, Anaulgras, Rohrschwingel Schwedischer Rlee,

18 Pfund per Acter zu 12c per Pfund \$2.16; 100 Pfund für \$10.75.

Mrs. 9.

9. Hür Marschweiden zur Uebersaat: Quellschwaden, Kasenstraußgras, 10 Pfund Brund Rohrichwingel, Fioringras,

10 Pfund per Acter zu 15c per Pfund \$1.50; 100 Pfund zu \$13.25.

No. 10. Für Dauerweiben auf beschattetem Lande ober Wald-boben ist die folgende Mischung zu empsehlen:

Rammaras, Anaulgras, Französisches Raigras, Wiesenrispengras, Weißer Alee,

18 Pfund per Acter gu 12c per Pfund \$2.16; 100 Pfund für \$10.75.

No. 11. Für Schweineweiden:

Incarnatklee, Italienisches Raigras, Fioringras, Schwedischer Klee,

16 Bfund per Acter zu 121/20 per Pfund \$2.00; 100 Pfund für \$11.25.

No. 12. 12. Für Schafweiben (hochgelegenes Land): Schafschwingel,

Kammgras, Wiesenrifpengras, Drahtschmele, Weißer Alee,

16 Pfund per Acter gu 12c per Pfund \$1.92; 100 Pfund für \$10.75.

13. Für Abhänge, um Abichwemmungen zu berhuten, ift folgende Mijchung zu empfehlen: No. 13.

Drahtschmele, Riefentrefpe, Goldhafer, Steinflee.

15 Pfund per Acter zu 18c per Pfund \$2.70; 100 Pfund \$16.

Ro. 14. Für guten humusreichen Boben in gewöhnlicher Lage, wie er hier in Wisconsin, und überhaupt in den westlichen und nordwestlichen Staaten sich findet und in die Fruchtfolge aufgenommen werden kann. Jeder sollte einen Berginch damit machen; zur Wiese wie auch zur Weibe gestlichen. eignet

Französisches Raigras, Wiesenrispengras, Anaulgras Englisches Raigras, Italienisches Raigras, Fivringras, Incarnattlee, Rothflee,

15 Pfund per Acter zu 12c per Pfund \$1.80; 100 Pfund für \$11.(0; 500 Pfund für \$50.00, 1000 Pfund für \$95.00.

Mein Ziel-Ginmal ein Kunde, immer ein Kunde.

KOSS' SEED CATALOGUE, 1902.

TESTIMONIALS.

Space does not permit me to publish many of the testimonials which I have received from my patrons. I am always glad to hear of your success with my seeds and although I can not print all of these letters, I trust this will not keep you from writing them.

JUNEAU, WIS.

DEAR SIR:—
We were well satisfied last year with your Seeds. Everything was exceptionally good. Ep. Sieloff. ally good.

TUSCARAWAS Co., OHIO. MR. THEO. Koss, Milwaukee, Wis.

DEAR SIR:-

We have been buying our supply of Seeds from you ever since 1891 and have always been well satisfied with them. My wife is more than pleased with the flower seeds you sent free and told me to thank you for them.

JOHN HAMMEL.

The seeds I bought of you last year were the best I ever had. Enclosed flud order. Ed. Werber.

PRENTICE, WIS.

DEAR SIR: -

Seed and Potatoes which I ordered, seed and rotation and are entirely satisfactory. Thanks for promptness.

Yours truly,

WM, WELLER.

SHOHOLA, PA.

MR. THEO. Koss.

DEAR SIR: — Please send me the seeds specified on enclosed order sheet. I bought from you last year and was well satisfied.

MRS. K. BUCHMANN.

Again 1 send you my Annual Catalogue (my only agent), with an honest description of my seeds. My trade continues to with an industries the children increase, for which I wish to thank my customers in all sections of the country. And for the orders received year after year from my old customers I feel especially grateful. My aim shall be to merit a continuance of your good will. The outlook for the farmer and gardener is brighter than for years. The past season has been one of prosperity for the people of the United States generally.

I offer my customers this year a fresh and new stock of Seeds, all selected with great care and carefully tested. With the close competition now existing in all lines of business, the question with the Seedman especially is, of how the quality of the stock may be sustained to compete in prices with the irresponsible dealer.

In the purchase of Seeds our best gardeners look for quality, and not how cheap they can buy. If quality fails all his time and labor are lost.

FRESH SEEDS-I do no Commission Business as many Seed Houses do, taking back at the end of the season all unsold seeds, thus having old seeds from year to year. I sell outright only, in any quantity my customers may wish to buy.

MY PRICES—As this catalogue is going to press, without knowing quotations of others, and although I am confident that my prices will average low, yet should my prices of anything be found high, I am ready to meet all honorable competition.

SEEDS BY MAIL—All seeds in packets, ounces and quarter pounds will be sent postpaid by mail at prices quoted, on parcels containing more than a quarter pound postage must be added at the rate of 8 cents per pound, on Beans and Peas 8 cents per pint and 15 cents per quart, and on Corn 6 cents per pint and 10 cents per quart.

SHIPPING DIRECTIONS-Shipping directions should ompany all orders. Where no particular mode of transporaccompany all orders. tation is designated I shall exercise my best judgment, and forward by express, freight or mail, as may seem most advisable.

REMITTANCES—Cash should always accompany the order. I will be responsible for money sent to me by Money Order, Bank Drafts, Express or Registered Letter. Every post-master is required to register any letter on payment of 8 cents extra postage. The cost of remitting may in all cases be deducted from the amount sent.

SIGN YOUR NAME AND ADDRESS—Many orders reach me every season in which the Name and Post-Office Address are lacking. It is of course impossible for me to fill these orders until they are identified.

LIST OF NAMES-I will consider it a special favor, if my costumers, when they send in their order, will also send in the names of six or more friends or neighbors, of such who send away from home for their supply of seeds. With every such order received I will put in several extra packets for doing me this favor. Do not however send any names after April 1st, as after that date they are of no value to me for this year,

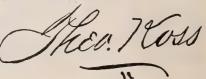

MY SPECIAL OFFER of Vegetable and Flower Seeds, in Packets only. The collections may be made up of either Vegetable or Flower Seeds, or partly of each at the option of the purchaser. Seeds by Weight or Measure Cannot be Included, as on these I cannot make any discount.

For 25 cents, the purchaser can select seeds in Packets to the value of 30 cents. For 50 cents, the purchaser can select seeds in Packets to the value of 70 cents. For \$1.00, the pur-chaser can select seeds in Packets to the value of \$1.60. For \$2.00, the purchaser can select seeds in Packets to the value of \$3.50. For \$3.00, the Purchaser can select seeds in Packets to the value of \$5.00.

I issue a special Wholesale List for Market Gardeners, Truckers and those buying more than \$5.00 worth of Garden Seeds Send for it, if this means you.

Awaiting your commands, I remain

Yours truly,

Comprising all the standard varieties as well as all novelties of real merit. Grown in climates and under conditions best suited to their perfect development.

ASPARAGUS

Columbian Mammoth White-A new and distinct variety with *pure white* shoots, of very large and vigorous growth and superior quality, remaining a long time in edible condition. Pkt., 5c; oz., 10c; ½ lb., 25e: lb., 75c.

Palmetto-Very early and desirable on account of its large size, regular growth, great productiveness and ex ellent quality. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 50c. Conover's Colossal—A well tried standard variety,

large size, quick growth, good quality. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 40c.

ASPARAGUS ROOTS

Two-vear-old roots.

Columbian Mammoth White-\$1.25 per 100 by ex-

Palmetto-\$1.00 per hundred by express. Conover's Colossal-75c per 100 by express.

BEANS-Dwarf or Bush

Davis' Kidney Wax-The best for market gardeners or canners. In productiveness it is astonishing, as it will produce at least one-third more bushels of pods to the acre than any other wax bean. The pods are long, -traight, oval, of clear waxy white color and handsome. Often growing from seven to eight inches in tength and when fit for use are quite stringless and of fine flavor. Pkt. 5c.; pint, 15c; quart, 25c; peck, \$1.65; bushel, \$5 75.

Valentine Wax.—A new variety and claimed to be the earliest of wax beans. The pods are thick and fleshy with but very little string; the plant is vigorous and productive, and it promises to become a popular sort Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.50; bushel, \$5.25.

Improved Rust Proof Golden Wax-While grown side by side for several years with other wax beans, all of them more or less affected, many of them completely ruined by rust, this bean has remained entirely free from it. Exceedingly crisp and tender and of a most delicious flavor. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.50; bushel. \$5.50.

Golden Wax - An early stringless bean; pod of golden wax color and excellent quality. 15c; quart. 25c; peck, \$1.50; bushel, \$5.50. Pkt., 5c; pint,

Black Wax—Bright, rich yellow in color, very tender, rich and buttery when cooked. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.50; bushel, \$5.50.

White Wax—Similar in color of pod and quality to the black wax—acceptance.

the black wax, pods flatter. 25c; peck, \$1.50; bushel. \$5.50. Pkt., 5c; pint, 15c; quart,

25c: peck, \$1.50; bushel, \$5.50.

Early China Red Eye—An excellent early green podded variety. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.25; bushel. \$4.50.

Scarlet Runner-Cultivated for ornamental pur-Pkt., 5c; pint, 15c; quart, 25c.

BEANS-English

Broad Windsor-Largest and best. Pkt., 5c; pint 15c; quart, 25c.

BEETS

Fedmand's Turnip—A new and very superior variety. Nearly as early as the Eclipse The skin and flesh are deep blood red in color, exceedingly sweet and tender, of good market size. round and smooth, with a single tap root, top very small. Cannot fail to give the

highest satisfaction for winter or summer use. Pkt., 5e; oz., 10c; ¼ lb., 15e; lb., 35c.

Crosby's Egyptian—An improved strain of the Egyptian. While being as early, it is much thicker, smoother, of better color and quality than its parent. A most desirable beet. Pkt., 5c; oz., 10c; 1/4 lb., 20c;

Early Blood Turnip —Tender and a good late keeper. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Eclipse—An early variety, globe shaped, smooth, with firm small top, very sweet, flesh fine and dark red color. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 35c.

Long Smooth Blood Red - Tender and sweet, xcellent for winter use. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb 35c

Swiss Chard or Silver Beet-A distinct vegetable and much superior to the common beets for greens. sown at the same time, it will be fit to use before them. Later, the plants form broad, flat, beautiful white and wax-like stems to the leaves, which are very delicious cooked as beets, or pickled. We recommend all our customers to try it. Pkt., 5e; oz., 10c; ¼ lb., 15c; lb. 50c.

BRUSSELS SPROUTS.

Dwarf Improved-A fine strain. Pkt., 5c; oz., 15c; 1/4 lb., 35c.

\$2.00. Champion Yellow Globe—A favorite round variety. 1/2 lb., 10c; lb., 25c; 10 lbs., \$2 00.
White Sugar Beet—Grown extensively for feeding

stock, also for the extraction of sugar. ½ lb., 10c; lb., 25c; 10 lbs., \$2 00.

Klein Wanzleben—This kind is grown on a larger scale than any other sugar beet. The root is conical, straight and even, quite large at the head and rapidly tapering. It is easy to dig, and is a heavy yielder. ¼ lb., 10c; lb., 25c; 10 lbs., \$2 00

CAULIFLOWER.

Early Snowball-Throughout the country this is considered not only the earliest of all cauliflowers, but considered not only the earliest of all caulilowers, but it is more certain to make a head than any other sort. Its dwarf habit and short outer leaves allow it to be planted as close as eighteen to twenty inches apart each way, thus making it especially valuable to market gardeners. Our stock is extra choice and cannot be excelled. Pkt., 20c; ¼ 0z., 75c; oz., \$2.50.

Extra Early Dwarf Erfurt—Valuable for forcing. A very popular variety in Europe and with eastern gardeners. First quality. Pkt., 15c; ¼ oz., 60c; oz., \$2.25.

Early Paris-Well known small variety which usually proves quite satisfactory. Pkt., 5c; oz., 50c.

Lenormand's Short Stemmed—There is considerable call for a late variety of cauliflower, and in the Lenormand's we have just what is wanted. It is of large size and produces well formed heads of excellent quality. Pkt., 5c; oz., 50c.

I am anxious for your trade and don't attempt to disguise that fact at all. Will you favor me with a trial order?

CABBAGE

There is nothing the gardener raises that requires a more careful selection of seed for a profitable crop, than the cabbage. The seed must not only be of good germinating quality, but must be true to name, of uniform type, grown from perfect solid heads, and in a climate especially adapted to its perfect maturity. Such seed I offer my patrons with the utmost confidence that it will give the highest satisfaction in every respect.

Early Jersey Wakefield—Extensively grown, requiring no recommendation. Pkt., 5c; oz., 25c; ¼ lb.,

lb., \$2.60.

Henderson's Early Summer Cabbage.

Henderson's Early Summer-A most excellent variety. Twenty days later than the Wakefield, but it variety. grows in fully double the size of the latter. Pkt., 5c; 122, 20c; ½lb., 50c; lb., \$1.75.

Fottler's Improved Brunswick—An early drum-

rottler's Improved Brunswick—An early drum-head of large size, ready for market soon after first early sorts. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., \$1.40. Succession—(True Stock) A medium early variety and such a grand keeper, that it is valuable for both early and late use. The largest growers say it is one t the best marketing cabbages ever introduced, and I ant to add that it is also fine for the home garden.

Premium Flat Dutch—The standard winter varity, low growth, heads large, round, solid and flat on top, an excellent keeper. Pkt., 5c; oz., 15c; ½ lb., 50c;

\$1.65.

Improved Long Keeping—A remarkable good eeper. Heads large, uniform, solid and of excellent favor. Pkt., 10c; oz., 35c; 1/4 lb., 85c; lb., \$3.25.
Luxemburg—Also known as Hard Head. Makes a ve y hard head of large size and extraordinary weight, and teramerkable for its keeping qualities.

and is remarkable for its keeping qualities. An excel-ent sort for late spring use. Pkt., 10c; oz., 25c; 1/4 lb., 75e; lb., \$2.60.

The Holland Cabbage.

The Holland-This is a favorite winter sort with winter market gardners. The heaviest cabbage of It is as hard as a rock and a small sized head, will weigh more than a large sized head of other sorts. it. Pkt., 10c; oz., 30c; 1/4 lb., \$1.00; lb., \$3.75.

Large Late Drumhead-Large, round and solid

Pkt, 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.40. Surehead—(Genuine Strain.) All All head and always Sure to head; sure to head; this very popular variety is rightly named Surehead because it never fails to form a good, solid head, even on poor soil, but the richer the soil the larger and finer the head. It is the finest late cabbage in this country, and the best market variety, and heads the list for winter use. Pkt., 5c; oz., 20c; 1/4 lb., 50c; lb.,

Koss' Short Stem Drumhead-(Late.) Head very large, hard, solid, round, flattened on the top, uniform in size and shape, often attain 20 to 30 lbs. in weight and are always of the finest quality and a sure header. It has a very short stem and grows very compactly, leaves all turning in to form the head, with very loose leaves, thus allowing it to be set close together, One of the best for making 'Sourkraut." Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb., \$2.00.

Early Dark Red Erfurt—Early and valuable for pickling. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

Mammoth Red Rock-A market gardener's strain of unusual size, color and weight, the result of careful and intelligent selection. It has proven very valuable. Its handsome appearance, large size, solidity and good quality will make it very desirable to all who like red cabbage. Solid and as good a keeper as any red cabbage. Color very dark red. Pkt., 5c; oz;, 20c; 1/2 lb., 60¢; lb., \$2.00.

Green Globe Savoy—Early, very tender and sweet. Pst., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.60.

Drumhead Savoy—Heads large, round, compact, excellent for winter use. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., \$1.60.

CORN-Sweet

Extra Early Adams-This is really a field corn, but a very tender variety for the table. It can be planted earlier than any sweet corn. Ripens within sixty days. Pkt., 5c; pint, 1uc; quart, 20c; peck, 75c; bushel, \$2:25. Cory—The earliest, productive,

cory—The earliest, productive, and in great demand. I have both the white and red cob variety. Pkt.. 15c; quart, 25c; peck, 85c; 5e; pint. bushel, \$3.00

Early Minnesota—Early, very productive, and of excellent quality. Pkt. 5c; pint, 10c; quart, 20c; peck, 75c; bushel, \$2.50.

Moore's Early Concord—A good second early variety. Many of our Milwaukee gardeners plant is as late as July 1st, as the ears will sell as well as Stowell's Evergreen. Pkt., 5c; pint, 10c; quart, 20c; peck, 75c; bushel, \$2.50.

Country Gentleman—The most delicious of all sweet corns; the ears are somewhat smaller than the coarser varieties, but for private family use, where quality is preferred to size, it has no equal Time of ripening is a little later than Stowell's Evergreen. Pkt. 5c; pint. 15c; quart, 25c; peck. 85c; bushel, \$3.00.

Black Mexican—Sweet and desir. Cory Sweet Corn able for family use. When dry the kernels are black. The corn, when in condition for the table, cooks remarkably white and is not excelled in tenderness by any Pkt., 5c; pint, 10c; quart, 20c; peck, 75c; other sort bushel, \$2.50.

Stowell's Evergreen-An excellent late variety remaining a long time in a condition suitable for boiling Pkt., 5c; pint, 10c; quart, 20c; peck,75c; bushel \$2 40. Mammoth Sugar—A large, late variety, cob white, well filled and rich flavored. Pkt., 5c; pint, 10c; quart,

20c; peck, 75c; bushel, \$2.50.

CORN-Pop

Silver Lace—This is an exceedingly handsome variety of pop corn. It is a fine popper and produces very heavily. Pint, 15c; quart, 25c.

Pat., 5c; oz., 10c; ¼ lb., 25c; lb., 65c.

Parly Scarlet Horn—An old favorite sort. Pkt., 5c; oz., 10c, ¼ lb., 20c; lb., 60c.

Oxneart or Guerande—Intermediate between the half long and stump varieties. Roots thick, the diameter often exceeding the length. rkt., 5c; oz.,

10e; 4 ib., 20c; 1b, 60c

Chantenay—vs a table variety it is first-class; in shape it is larger than the The fiesh is of beautiful rich Scarlet Horn and also broader at the shoulder. The flesh is of beautiful rich orange color, and of the finest quality. It is medium early with small tops, a. d wir give great satisfaction to both the market and private garden. Pkt, 5c; oz., 10g, 14 lb., 20c; lb., 60c.

Mantes—Half long stump rooted, color deep scarlet. Pkt., 5c; oz., 10c; ¼ lb., 15e; 1b., 50c.

Half Long Scarlet Pointed-Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

Danvers—Haif long orange, one of the most productive. Pkt., 5c; oz., 10c; 4b., 20c; ib, 60c.

Improved Long Orange—May be grown in the garden or as a field crop. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

Large White Belgian—Excellent for stock. Oz., 5c; ¼ lb., 15c; lb., 40c;

CUCUMBER.

Improved Early White Spine

Improved Early White Spine - Fruit six to eight inches long, remaining green longer than any other variety, 5e; oz., 10e; 1/4 lb., 15e; Pkt. lb., 40c.

Early Frame-Early sort for table and pickling, of medium size, straight and handsome. Pkt., 5c; oz., 10c; 1/4 lb, 15e; 1b., 40c.

Boston Pickling - Very productive and of superior quality. Pkt, 5c; oz., 10c; 1/4

quality. Pkt, 5e; oz., 10e; 1/4 lb., 45e; lb., 40e.

Japanese Climbing—
Vines are extra strong, and foliage much more vigorous than other sorts, and from its climbing habit can be grown on trellises, etc., saving val-uable space. It is very profitable, 40 to 50 cucumbers having been counted on single plants.

Flesh thick and of fine flavor. Good for pickling and slicing. Pkt., 5c; oz., 15c; 1/4 lb.,

25c, lb., 75c.

Koss' Gream City Pickle—Early and very productive, flesh crisp and tender, fruit of dark green color, which they retain as pickies. This variety has been grown from my own special stock. Pkt., 5c; oz.,

10c; ¼ lb., 15c; lb , 50c.
Nichol's Medium Green—Exceedingly productive, of medium size and always straight and smooth. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 45c.

Improved Long Green—An old standard sort, one foot long. rkt., 5c; oz., 10c; ½ lb., 15c; lb., 45c.

CORN SALAD or FETTICUS

Large Seeded-Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

CRESS.

Extra Curled Peppergrass - The should be sown in drills about 15 inchapart, on ground and the plants well cultivated. Pkt, 5e; oz., 10e; 1/4 lb., 15e; lb., 40c.

True Water Cress
Thrives only when its roots and stems are submerged in water. The seed should

be sown and lightly covered, in gravely mucky lands, along the border of small streams. Pkt., 5c; oz , 25c; 1/4 lb., 90c.

EGG PLANT.

New York Improved — Purple in color, large size and good quality. Pkt., 5c; oz., 30c; ¼ lb., \$1.00.

Black Pekin—Round in form, solid and quite early. Pkt., 5c; oz., 20c; 1/4 lb., 75c.

ENDIVE.

Moss Curled—Very early and of excellent quality. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Green Curled—Very hardy, leaves dark green, curly and tender. Pkt., 5c; oz. 15c; 1/4 lb., 35c; lb., \$1.25.

GARLIC.

Sets per ½ lb., 20c; lb., 35c. If by mail add 8c per lb. for postage.

KOHLRABI.

Early White Vienna —The best market variety, tender. Pkt., 5c; oz . 15c; 1/4 lb., 50c; lb., \$1.75. Early Purple Vienna—Different from the above only in color. Pkt., 5c; oz , 15c; ¼ lb., 50c; lb., \$1.75.

Large Green—Used for feeding stock, bulbs large. Pkt., 5c; oz., 10c; ¼ lb., 80c; lb., \$1.00.

CELERY

Golden Self-Blanching-Most important acquisition, and cannot be too highly recommended. Without any banking up or covering whatever, even the outer ribs become a handsome flesh, yellowish white. The heart is large, solid and beautiful, rich, golden yellow color. It is an excellent keeper. Pkt., 5c; 22., 20c; 14 lb., 65c; lb., \$2.15.

Giant Pascal-A new variety, being a selection from Giant Pascal—A new variety, being a selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are very large, thick, solid, crisp, and of a ptch, nuty flavor. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., \$1.40.

Kalamazoo—This new distinct variety originated

with a prominent celery grower of Kalamazoo, Mich., and is pronounced by those who know it best, "the best

perfect type of Dwarf White Celery known." It is of a beautiful creamy white throughout, of quick growth. very large size, close habit, remarkably solid. crisp and fine flavored, ribs are very broad and stiff and compact.

Hartwell's Perfection—One of the very best sorts for market, owing to its great keeping qualities. Very solid and never hollow. Pkt, 5c; oz., 15c; ¼ lb., 45c;

Evan's Triumph—This new celery is one of superb quality and one of the best keepers, remaining in condition for use much longer than most sorts. The very large solid stalks are of the finest quality and texture, crisp, brittle, tender and really nutty in flavor. It stands at the head of all late keeping celeries. Pkt., 5c;

07. 25c; ¼ lb, 75c; lb, \$2.50.

White Plume—Requires very little earthing up to

white Flume—Requires very little earthing up to blanch it; crisp, solid, and of a nutty flavor. Pkt., 5c; oz., 20c; ¼ lb., 55c; lb., \$1.80

Golden Heart—Very fine when blanched, the nearts are of a rich golden yellow. Pkt., 5c; oz., 20c; ¼ lb., 55c; lb., \$1.65.

Crawford's Half Dwarf—Color a yellowish white convertentive Pkt. 5c; oz., 15c; lb., \$1.40.

very attractive. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., \$1.40.

Boston Market—A bushy, white, solid, fine market variety. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., \$1.50.

Incomparable Dwarf Crimson—Dwarf habit, ex-

ceedingly solid, fine, dark crimson color. Pkt., 5c; oz., 20c; 14 lb., 60c; lb., \$2.00.

CELERIAC

Erfurt Improved Turnip Rooted-Pkt,, 5c; oz., 15c; 4 lb; 40c; lb. \$1.25.

Large Smooth Prague—Round, smooth roots, with very few side roots. This is the best and largest variety. Pkt., 5c; oz., 15c; ¼ lb, 40c. lb., \$1.25.

Apple Shaped—Roots large, smooth, and almost

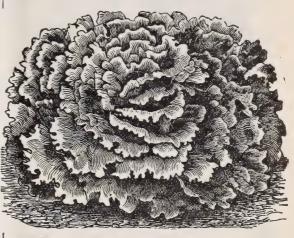

round in shape. Pkt., 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.25.

LETTUCE

Grand Rapids-There is nothing superior, if it has will grow more weight in the same space, is not as liable to rot and will keep longer without wilting than any other variety. It is of fine appearance, crisp and tender. Pkt., 5c; oz., 10c; ¼ 1b., 25c; 1b., 85c.

Tilton's White Star—A great favorite with market

gardeners. Superior for forcing as well as out-door planting; splendid shipper, forms enormously large heads, leaves bright green, thick and crisp. This variety retains its fresh appearance longer than many other varieties. Plat 50: or 100: 18 1250. other varieties. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 75c.

Prize Head Lettuce.

Prize Head-One of the very best varieties; grows to a large size; even the outer leaves are crisp; is slow to go to seed and of fine flavor. Pkt., 5c; oz., 10c; 1/4 lb, 20c, 1b., 75c

Deacon Cabbage—While this lettuce does not make as large a head as some others, the heads formed are as large a lead as some others, the heads in the date very solid and of excellent flavor, and remain in condition for use as long as any variety in cultivation. Pkt. 5c; oz., 10c; ¼ lb , 25c; lb., 85c.

All the Year Round—Hardy, compact and crisp, in small cloe heads Pkt., 5c; oz., 10c; ¼ lb , 20c;

Yellow Seeded Butter — Very crisp and tender. kt, 5c; oz., 10c; ½ lb., 20c; lb., 75c. Hanson — Heaos green, with white hearts. Large and sond, crisp and tender. Pkt., 5c; oz., 10c; ¼ lb., 20c;

Black Seeded Simpson—A curled variety of unusual merit. Excendent for forcing. Pkt., 5c; oz., 10:; 1/4 lb., 20e; lb., 70e

Boston Curled—An excellent early variety for gar-nishing. Pkt, 5c; oz., 10c; ½ lb., 25c; lb., 85c. Brown Dutch Winter—A very hardy sort, medium \$ze, fine flavor. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 75c.

German Dwarf - Pkt., 5e; oz , 10e; 1/4 lb., 25e; lb., 75e. LDEK

BORECOLE Tall Green Curled

- Finely curled

Large London Flag Hardy, strong growing plant with broad leaves. Pkt., 5c; oz., 10c; 14, 16., 30c; lb., \$1.00.

Musselburg—The

favorite market variety Pkt., 5e; oz , 15e; ¼ lb., 40e; lb., \$1.25.

Musselburg Leek.

MELONS-Musk

Tip Top-A melon I recommend to every lover of this luscious fruit and to every gardener who grows for the market. It is yellow fleshed and of the very best quality. Every melon produced, big or little, early or late in the season, is a good one. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

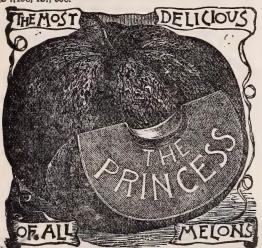

Paul Rose Musk Melon.

Paul Rose Musk Melon-Is a decidedly new and meritorious variety that is bound to please all classes of melon producers. It is a large "Netted Gem," with deep orange flesh, secured by crossing with the Osage. It is a great producer of extra fine quality Osage. It is a great producer of extra fine quality melons; as early as the Gems and equally as good ashipper. A good variety for the large grower and equally as good for the small grower for home use. True seed is very scarce this season. Pkt., 5c; oz., 16c; ½ lb., 25c; lb., 75c.

Bay View—Very prolific, flesh light green, thick and sweet. Pkt., 5c; oz., 10c; ½ lb., 10c; lb., 50c.

Green Citron—Handsome, medium size, netted, lesh thick, green, highly flavored, Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 50c.

The Princess - The most delicious melon, The lesh is of a rich salmon color, very thick and sweet. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Surprise-A great favorite with market gardeners.

Surprise—A great tavorne with market gardeners. Skin-light colored, flesh a light salmon, quality choice. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

Osage — Medium size, very productive and unsurpassed in flavor. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c. Hackensack—Deeply netted, very large and productive. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

Netted Gem or Rocky Ford—This has become one of the most popular of small or basket melons. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick, green, very sweet and high flavored. I offer an exceptionally fine stock of this sort, the fruit being wonderfully uniform in shape and quality. Pkt., 5c; oz., 10c; ½ lb, 25c; lb., 75c.

Grand Rapids—The earliest large musk melon. A new, extra early, yellow fleshed sort of handsome shape.

It is a most profitable variety to the gardener on account of its size, attractive appearance, and its extreme earliness. Its flavor is not as good as that of the Osage, or other standard melons, but it is ready for market before any other large variety can be picked, and that fact insures ready sales. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 50c.

MELONS-Water

Sweet Heart—Early, large, handsome, a good shipper and long keeper. Melons oval. heavy and uniformly mottled, very light green. Rind thin but firm, solid and very tender, melting and sweet. Pkt., 5c; oz., 10c; 1/4 20c; lb., 50c

Henderson's Green and Gold — Flesh a golden orange color, very juicy and sweet. Pkt., 5c; oz., 10c; 1/4 lb, 15c; lb. 45c.

Kolb's Gem — Large, delicious and an excellent keeper. Pkt., 5c; oz., 10c; 14 lb., 15c; lb., 40c. Christmas—Have been kept until Christmas in perfect condition. Their valuable keeping and shipping qualities are due to a peculiar hard tenacious coating or outside enameling of the skin, which also gives them an exceedingly handsome and fresh appearance. desh is of a beautiful rich scarlet, very solid and of a sugary flavor. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 50c.

Citron—(For preserves.) Small round fruit, makes a

citron—(For preserves.) Small round fruit, makes a beautiful clear, nearly transparent preserve of fine flavor. Pkt, 5c; oz., 10c; ½, lb., 15c; lb., 45c.

Dixie—This melon has excellent merits and I can recommend it to my customers as the best shipping melon grown, b-ing even larger, earlier and far more productive than the Koib's Gem, which has heretofore been considered the best melon for shipping. Another very important point is its productiveness, having six to eight large melons on a vine. Pkt., 5c; oz., 10c; ½, lb., 15c; lb., 40c.

Wountain Sweet — Fruit large, dark green, rind thin, flesh hard, solid and very sweet. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 45c.

PARSNIP

Guernsey - (Improved half The roots do not grow so long.) long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 40c.

Long Smooth or Hollow Crown-Smooth and large, very tender and sugary; best for general use Pkt, 5c; oz., 10c; 1/4 lb., 15c; lb., 35c.

MUSTARD

White London - Best for salads. Oz., 5c; ¼ lb., 10c; lb., 30c.

Brown — More pungent than the white. Oz., 5c., ¼ lb , 10c; 1b., 30c.

MUSHROOM SPAWN

English-Per lb., 15c; 10 lbs., \$1.35, by mail, per lb., 25c.

OKRA or GUMBO

Dwarf White - Early and very productive. Pkt.,

5c; Oz. 10c; 1/4 lb., 15c; lb , 45c.

White Velvet—The pods of this variety are round and perfectly smooth and not ridged like other okus. Pkt., 5c; oz., 19c; 1/4 lb., 20c; lb., 50c.

SUPERIOR ONION SEED.

My stock of onion seed is raised with particular care, none but the very best and earliest onions being selected for seed stock. Such care being exercised, I claim for it a quality superior to most of that in the market. The seed is plump and heavy and of strong

vitality

Prize Taker or Spanish King - A globe-shaped wariety of recent introduction, remarkable for its enormous size, many specimens reaching the weight of three and one-half pounds each. The skin is of a bright straw color, flesh white, very thick, and of mild flavor. Earliness, uniform shape, productiven ss and its long keeping qualities have made the Prize Taker a valuable acquisition. It is today one of the largest, handacquisition. It is today one of the targest, nanasomest and most profitable variety grown. Pkt., 5c;
oz., 15c; ½ lb., 40c; lb., \$135.
Extra Early Flat Red.—A variety of unusual early
maturity, medium size and of a deep red color. Pkt.,
5c; oz., 15c; ¼ lb., 35c; lb., \$1.15.
Extra Selected Yellow Globe Danvers—The
grass shaped heat colored and largest grouper of any

finest shaped, best colored and largest cropper of any of the yellow onions, and not to be compared with the ordinary stock of Yellow Globe Danvers Its points of superiority over the ordinary Yellow tenners are earliness of ripening, smallness of neck, perfect globe shape and principally of the penal principally of the penal principally of the penal principal ordinary in the penal ordinar and uniformity of shape and color. It is an immense cropper and will yield more marketable onions to the oz., 15c; 1/4 acre than any strain ever tried. Pkt, 5c; lb., 35c; lb, \$1.10; 5 lbs. or more, \$1.00 per lb.
Yellow Globe Danvers —Ordinary stock.

most popular onion all over the country. Excellent quality, mild flavored, very productive, ripens early, good keeper. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00;

5 lbs. or more, 90c per lb.

Yellow Danvers — Differing from the Globe strain only in shape, being more flat. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., 90c.

Large Red Wethersfield-The leading red onion. deep red in color, and an excellent keeper. Pkt., 5c; oz 15c; 1/4 lb., 35c; lb., \$1.10.

Mammoth Silver King-Of attractive shape, with silvery white skin and flesh of a most agreeable mild It matures quite early and reaches a much larger size than any other of the flat white varieties; frequently measuring twenty inches in circumference, and weighing from three to five pounds when well grown. They must be sown thinly to produce large We do not heritate to recommend it as one obsase the grower True American grown onions sure to please the grower seed. Pkt., 10c; oz., 20c: 1/4 lb., e0c; lb., \$2.00.

white Portugal or Silver Skin - Extensively grown for pickling. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb.,

Southport White Globe-The leading white onion, of mild flavor, and a good keeper. Pkt., 5c; oz., 20c; 1/2

1b., 60c; 1b., \$2.00.

EXTRA EARLIES.

Alaska—One of the very best extra early market varieties. Pods of perfect shape and good quality. Pkt. 5c; pint, 10c; quart, 20c; peck, \$1.25; bushel, \$4.75. First of All—A first-class extra early pea, maturing evenly. Pkt., 5c; pint, 10c; quart, 20c; peck, \$1.25; bushel \$4.50.

evenly. Pkt., 5c; pint, 10c; quart. 20c; peck, \$1.25; bushel, \$4.50.

Koss' Extra Early Market—Unequalled for excellence, yield, size of pod and regularity of growth. Emphatically the pea for market gardeners and truckers. It is a wonderful bearer, produces pods of good size, which ripen so evenly as not to require more than two

which ripen so evenly as not to require more than two pickings to clear off the crop. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1,25; bushel, \$4.75.

**Gradus (Prosperity)—A very famous new pea.

Extra early, and in fact the earliest large-podded pra in cultivation. Grows 3 feet high, produces uniformly large pods, from 4 to 4½ inches long, well filled with large handsome peas. Quality superior, with most delicious flavor. Pkt, 10c; ½ pint, 15c; pint, 25c; quart, 40c; peck, \$2.75.

**Nott's Excelsior—I am pleased to offer this

*Nott's Excelsior — I am pleased to offer this superb new variety and am sure my customers will be delighted with it as an ideal family and market pea. It is fully as sweet and delicious as the American Wonder and the pods are larger. It is far more productive than the Little Gem and is within a few days as early as the first early smooth peas, having matured in forty-three days. Pkt., 5c; pint, 15c; quart, 30c; peck, \$1.75; bushel,

American Wonder—Early, very productive and of the very best quality. Pkt. 5c; pint, 15c; quart, 25c; peck, \$1.75; bushel, \$6.25.

American Wonder Peas. "McLean's Little Gem—A dwarf, prolific, green wrinkled variety, early. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.50; bushel, \$5.50.

Tom Thumb—Very dwarf and early, of excellent wild a hydrothy. Pkt. 5c; pint, 15c; quart

quality, yields abundantly. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.50; bushel, \$5.75.

Be sure and try the Gradus and Dwarf Telephone Peas this year.

SECOND EARLY VARIETIES.

*Horsford's Market Garden - A most prolific hearer, pods medium size, numerous and well-filled with peas of delicious flavor. Somewhat later than the Little Gem. Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.25; bushel, \$4.50.

*Dwarf Telephone, or Daisy—It is the coming market pea. Ripens evenly and yields with the larger sorts. Our shrewdest market gardeners are planting it freely as a substitute for the Tall Telephone. This new freely as a substitute for the Tall Telephone. This new pea is a cross of Stratagem on Telephone and a most excellent sort. The vines grow about 15 to 18 inches high, are dwarf, stocky and vigorous, very productive, the plants frequently bearing from 5 to 7 pods. The pods are about 5 inches long and well filled with large, thick, pale green peas of good lasting qualities. The pods often contain as many as 10 peas. In season it is medium, being from 5 to 7 days earlier than Stratagem Pkt., 5c; pint, 15c; quart, 25c; peck, \$1.75; bushel, \$6.25.

Dwarf Sugar, Edible Pods—Early, used like snap beans or shelled. Pkt., 5c; pint, 15c; quart, 25c; peck \$1.35.

GENERAL CROP VARIETIES.

Telephone-An extraordinary cropper, bearing immense semi-double pods, full of large peas of exquisite flavor: Pkt., 5c; pint, 15c; quart, 25c; peek, \$150; bushel, \$5.00.

*Juno-The best wrinkled main crop pea in the market today. Vines robust in growth, pods stout, straight and usually borne in pairs. The pods are thick and well-filled with delicious, large, sweet dark green peas of the finest quality. P peck, \$1.35; bushel, \$4.75. Pkt., 5c; pint, 15c; quart, 25c;

Stratagem-The best variety for general crop. Pods of immense s.ze, many measuring five and one-half inches in length and containing as many as ten large, fine flavored peas. Pkt., 5c; pint, 15c; quart, 25c; peck. fine flavored peas. Pkt., 5c; pint, 15c; quart, 25c; peck. \$1.50; bushel, \$5.00.

Champion of England—An old favorite. Pkt., 5c:

Black Lyed Marrowfat—Pxcellent for either garden or field culture. Pkt., 5c; quart, 15c; peck, 75c; bushel, \$2.50.

PARSLEY

Champion Moss Curled—The leaves are very finely curled and moss like. Pkt., 5c; oz., 10c; 1/4 lb., 20c; 1b., 60c.

Plain Leaved - Hardier than the curled varieties. Pkt., 5c; oz., 10c: 1/4 lb., 20c. lb., 45c.

Fern Leaved—Valuable for table decoration. Pkt.. 5e; oz., 10e; ¼ lb., 20e; lb., 5oc.

Hamburg or Turnip Rooted—The roots are used for flavoring. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 50c.

SALSIFY or VEGETABLE OYSTER

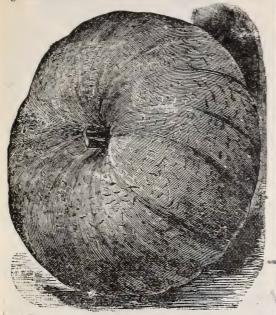

Large White—Pkt, 5c; oz, 10c; ¼ lb., 25c. lb., 75c. Mammoth Sandwich Island—Twice as large as the preceeding, ture white, very tender and delicious. Invaluable for market gardeners. Pkt., 5c; oz, 15c; 1/4 30c; lb., \$1.00.

Scorzonera or Black Oyster Plant—Treatment same as salsify, which it closely resembles, except that the skin is black. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

PUMPKIN

Calhoun-Gives the highest satisfaction. Outside color creamy brown, inside flesh deep salmon yellow; wonderfully thick and fine-grained; seed cavity very small. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

Large Cheese - Flat shaped, flesh yellow, fine grained and sweet. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Mammoth Tours Of enormous size, flesh salmon colored, very productive and of excellent quality.

Pit., 5c; oz., 10c; ¼ lb., 20c; lb, 60c.

Jonathan—This is one of the finest varieties ever infroduced; a good keeper, large size, very sweet and finest of all for pies. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 45c. Connecticut Field -Standard sort for field culture. Pkt, 5c; ½ lb., 10c; lb., 20c; 3 lbs.. 50c.

SPINACH

Long Standing-Late in going to seed. Oz., 5c; 1/4 15., 10c; lb., 25c.

Round Leaf-Excellent market sort, equally good

New Victoria Quick to mature; forms very large, exceedingly thick leaves, savoyed in the center. It remains in condition for use much longer than most kinds and cannot fail to please. Oz., 5c; ½ lb., 10c; lb. 30c.

Bloomsdale Savoy Leaved — The leaves are wrinkfed like Savoy Cabbage. Oz., 5c; 14 lb., 16c; lb., 25c.

Prickly Seeded — Triangular, arrow shaped leaves, the of the hardlest and generally used for fall planting. 9z., 5c; 1/4 lb., 10c; lb., 25c.

RADISH

Chartier-Color at the top bright crimson shading to pink at the middle and running to pure white at the tip. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 40c.

Early Scarlet Globe-Select forcing stock. questionably the best and earliest forcing radish extant. Color brilliant red, small leaved, flesh white, tender and crisp Pkt., 5e; oz , 10e. 1/4 lb., 20e; lb., 60e.

White Tipped Scarlet Turnip (Rosy Gem)-This is an early variety of medium size, of excellent flavor, and of very handsome appearance. Color deep scarlet, tipped with white. Pkt., 5c; oz, 10c; 1/4 lb., 15c; lb., 45c.

Early Scarlet Globe Radish.

Early Scarlet Turnip-An excellent early round, red radisa. Pkt., 5c; oz., 10e; ¼ lb., 15e;

French Breakfast-An olive shaped wnite tipped variety. Pkt., 5c; oz., 10e; ¼ lb., 15e; lb.,

White Summer Turnip-A well known standard sort. Pkt, 5c; oz., 10c, 1/4 lb., 15c; lb., 45c.

Gray Summer Turnip-Excellent for sum. mer use, mild. Pkt, 5c; oz., 10c; 1/4 lb., 15c; lb., 450

Yellow Summer Turnip - Withstands the heat and draught of

summer well. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 45c.

Long White Vienna, or Lady Finger - Skin and flesh pune white, mild, sweet, crisp. brittle, of quick growth. Pkt., 5c; oz., 10c; 1/4 ib, 20c; lb. 50c

Strasburg—A popular half long, white variety, of fine quality. Pkt., 5c; oz., 10c: 1/4 lb., 15c; ib., 50c.

Long Scarlet Short Top-A favorite sort. Pkt.,

5c, 10c: 1/4 lb, 15c; lb., 45c.

Rose China Winter — Very popular with market very smooth and of a bright gardeners. Form conical, very smooth and of a bright rose color. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

Long White Spanish—An excellent winter radish. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

Long Black Spanish—One of the hardiest and best for winter use. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

Round Black Spanish—Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

SQUASH

Hubbard-The leading squash for fall and winter use, hard skinned, flesh dark yellow, fine grained, dry, aweet and rich. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 50c.

warty Hubbard—This new strain of the Hubbard is n improvement. The wartiness indicates a very hard shell, which is one of the best features of a long keeping squash. It also denotes extra choice quality; harder and more warty the shell of a Hubbard the more delicate and sweet the flesh. Pkt.. 5c; oz., 10c; 1/4 lb., 20c;

An excellent variety, flesh solid, thick and Sibley-

rich colored. Ripens about the same time as the Hubbard. Pkt., 5c; oz., 10c: ¼ lb., 15c; lb., 40c.

Summer Crook Neck — Early, productive and of good quality. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Marblehead —A very good winter squash, similar to thubbard — Ruth, 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Bay State—Very prolific, large size, flesh thick and of very fine quality. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

White Bush Scalloped—Light cream color, large, flat, scalloped shaped, early. Pkt., 5c; oz., 10c; ¼ lb., 40c.

Boston Marrow.

Boston Marrow — A winter variety of excellent quality. Pkt., 5c; oz., 10c; 14 lb., 15c; lb., 40c.

TOBACCO

Connecticut Seed Leaf—Pkt., 5c; oz., 15c; 1/4lb., 50c. Imported Havana-Pkt., 5c; oz., 20c; 1/4 lb., 65c.

TOMATO

Atlantic Prize—We place this at the head of the main crop varieties for earliness. Comes in advance of such standard kinds as Acme, Beauty, etc. It bears in clusters, is of good size, smooth, round and of a fine scarlet color. Choicest seed from specimen fruits. Pkt., 5c; oz., 20c; 14 lb., 60c.

Buckeye State—A fine new, extra large Livingston

Buckeye State—A fine new, extra large Livingston sort, nearly one-half larger than Beauty, deep color, smooth, heavy and of spiendid quality. Pkt., 5c; oz.,

20c; ¼ lb., 60c.

Bond's Early Minnesota—Mr. Brinton, the tomato specialist, wno tested 110 varieties of tomatoes, states

specialist, who tested 110 van that this was the first to ripen. Most of the extra early varieties are irregular in shape, this is always round and smooth. Vines vigorous, with rather small leaf; fruit of medium size, of good shape, and dark red color. They ripen evenly, remain solid a long time and never crack. Pkt., 5c; oz., 20c; ¼ lb., 50c.

Stone—This new sort is a great favorite, and is one of the best introduced for years. Vine vigorous and productive. Fruit roun 1, apple shaped, large, very deep red in color and astonishingly heavy. Pkt., 5c; oz , 20c; 1/4, 1b., 50c.

Dwarf Champion—Its habit of growth is peculiar, for not only is it dwarf and compact, but the stem being thick, stiff and short jointed, it is actually self-supporting when laden with fruit. The fruit is of a purplish pink color, always smooth, and the flesh solid and of fine quality. Pkt., 5c; oz., 20c; 1/4 lb., 50c.

Yellow Plum—Good for preserving and pickling, plum shape, solid and smooth. Pkt., 5c; oz., 25c; 1/4 lb., 60c.

Acme—Early, medium size, very solid and productive, dark red, slightly tinged with purple. Pkt., 5c; oz., 20e; ¼ lb., 50c.

Livingston's Beauty—A very fine variety of large size, grows in clusters of four or five. Pkt., 5e; oz., 20c; ¼ lb., 50c.

TURNIP

Early Purple Top Munich—A German variety, remarkably handsome, very early with purplish red top, flesh snow white and of fine flavor. Pkt., 5c; oz., 10c; 1/2, 15c; lb., 45c.

Red Top White Globe - This is the largest yielder on the list, and very desirable for table use or stock. Pkt., 5e; oz.; 10e; 1/4 lb., 15e; lb., 40c.

White Egg—A rapid growing variety, egg shaped. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Yellow Aberdeen—Hardy and productive, good keeper, color pale yellow. Pkt., 5c; oz , 10c; ¼ lb., 15c; lb., 85c.

Early Flat White Dutch—Standard variety, good marketable size, pure white, small top, with but few strap shaped leaves. Pkt., 5c; oz., 10c; 1/4 lb., 15c; lb., 40c.

Long White or Cow Horn—This variety is carrotlike in form, growing nearly half out of the ground and

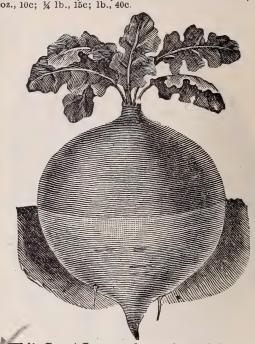

generally slightly crooked. Pkt., 5e; oz., 10e: 1/4 lb, 15e; lb, 40e.

Purple Top Strap Leaf — A well-known popular variety, either for table or stock. Pkt., 5c; ¼ lb., 10c; lb., 35c.

Are you a Market Gardener? If so, ask for Gardeners Wholesale List.

RUTABAGA-Swedish Turnip

Imperial Hardy Swede—Flesh orange yellow, of firm texture, very sweet, mild and well flavored. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 40c.

white Sweet German—Large size, oval form and very solid, flesh pure white and sweet. This is the best keeping variety. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c
Skirving's Improved Purple Top—A very popular variety; flesh firm, yellow, sweet and fine flavored. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 35c.

SWEET, POT and MEDICINAL HERBS.

Indespensable to the cook, useful to the sick room, and many kinds fine for perfuming clothing, etc. Herbs in general love a mellow and free soil. The chief points are to cut them on a dry day, when not quite in full bloom, and to dry them quickly in the shade, and when dry pack close in dry boxes, keeping them entirely excluded from the air.

SELECTED FARM SEEDS.

OATS

We are only sorry our stock is not larger. Peck, 35c:

bushel, \$1.15: 5 bushels or over, at \$1.00.

The Washington Oats—The Washington Oat is very early, in straw large, strong and stiff, rust proof and of a beautiful light yellow color. A wonderful stooler, stronger than any other variety, always stands upright, even on very rich soil, and above all it is immensely productive The grain is light yellow in color and has a thin hull. The price I have decided to make as low as possible so as to give everyone an opportunity to procure some. Others would ask two and three times as much for this splendid variety. You will want it at these prices. Peck, 30c; bushel, 95c; 5 bushels, \$4.50, 10 bushels, \$8.50.

The Lincoln Oats—Were first introduced in 1893. It is unquestionably the most productive.

is unquestionably the most productive. It is also very is unquestionably the most productive. It is also very early and has so far proven entirely rust proof. Straw is stiff and strong, standing up. The grain is very handsome and valuable for feeding, on account of its thin hull, heavy meat and soft nib. Seven bushels produced 817 bushels, 21 lbs., or an average of 116 bushels to each bushels with Parkels and 1800 bushels. to each bushel sown. Peck, 30c; bushel, 95c, 5 bushels, \$4.50; 10 bushels, \$8.50.

New Zealand Oats—This grand new variety was first introduced by us in 1895 and has given remarkable satisfaction, in one instance yielding 102 bushels per acre, while other varieties in the same vicinity yielded only 40 and 50 bushels. It averages a trifle higher than other sorts, has very stiff, strong straw, never known to lodge. About one week later in maturing than the common round head oat, thus giving time to harvest the hay crop. They stool remarkably well, and thus require less seed to the acre; are almost entirely free from rust on all kinds of soil. Peck, 30c; bushel, 90c; 5

Negro Wonder Oats—Ripens early, stands upright on the richest soil. A good yielder. Peck, 30c; bushel, 95c; 5 bushels, \$4.50.

SPRING WHEAT

Improved Pedigree Blue Stem-Dakota grown seed. Early vigorous and very productive. Peck, 50c; bushel, \$1.60; 2½ bushels, \$3.75.

Saskatchewan Pyfe—An excellent milling wheat, Peck, 40c; bushel, \$1.40; 2½ bushels, \$3.20.

SPRING RYE

Valuable as a "catch" crop to sow where winter grain has failed. Peck, 35c; bushel \$1.25; 2% bushels, \$3.00.

St. John's Rye—A perennial, yielding it sown early, a crop of fodder the first season and grain the next.

Porty 15c; bushel \$1.00; 21/2 bushels, \$3.70. Peck, 45c; bushel, \$1.60; 21/2 bushels, \$3.70.

FLAX

Russian-Extra clean seed. Peck, 65e; bushel, \$2.15; 2½ bushels, \$5.25.

BARLEY

Mandscheuri—A new six-rowed variety, which is undoubtedly the very best sort. Peck, 35c; bushel, \$1.10; 2½ bushels, \$2.50.

BUCKWHEAT

Silver Hull—A greatly improved variety. It is in bloom longer, matures its crop sooner, and yields twice as much as any ordinary sort, the grain is rounder, of a beautiful light gray color. The flour is white and more nutrious. Peck, 30c; bushel, \$1.00; bag, 2½ bushels, \$2.25.

Japanese-Ripens a week earlier than the silver hull. stands up well, and makes better flour than any other kind of Buckwheat. Peck, 30c; bushel, \$1.00; bag, 21/4 bushels, \$2.25.

Common-Peck, 25c; bushel, 90c.

WILD RICE

Valuable as a forage plant on low, swampy lands. Pound, 30c.

LUPINS

Yellow—An excellent forage plant, much relished by cattle, also valuable for enriching poor sandy soil. Pound 10c; 5 lbs., 45c; 10 lbs., 75c; 100 lbs., \$7.25.

SPILTZ

A most wonderful new grain, somewhat similar to wheat. Will thrive on most any soil and yields immensely, very often more than barley and oats. It has given good satisfaction to my customers, and every farmer should try it. Pkt., 10c; lb., 30c, postpaid. Per freight: peck, 60c; bushel, \$1.75.

RAPE. TRUE DWARF ESSEX. темприниний приници

The main secret in the success ful raising of sheep for mutton, for which the English are so famous, lies undoubtedly in the very general use of Fodder Rape for feeding them. After the corn is harvested and before winter sets in there is need of nutritious

sets in there is needfor nutritious green fodder, especially for sheep. Dwarf Essex Rape is easily grown and perfectly hardy, and possesses remarkable fattening properties. One acre will pasture thirty-six bead two months, and lambs will make a gain of 8 to 12 pounds a month. "They soon weigh like lead." Pigs and cattle are also very fond of it. The plant is a rank grower and should have heavy rank grower and should have heavy manuring, as well as high cultivation. Any corn soil will grow Rape. Sow the seed during the third or fourth week in June; it can then resist drouth, and the crop can be ready to feed at a season when it is most needed. By sowing different pieces several weeks apart a continuous supply of good feed can be had. When sown in June the Rape will have to be fed during August, though if the first crop were cut about four inches fom the ground, there would be an after-

math or second growth that would be useful after that time. For the breeding flock a piece should be sown about the first week in July, with some even later, and the chances taken on its withstanding the drouth. It does well sown with oats.

its withstanding the drouth. It does well sown with oats.

After the oats are cut the Rape grows rapidly.

If the soil is rich and clean sow broadcast, if not so clean sow in drills and cultivate as for corn. Rape is especially.

adapted for a catch crop, succeeding well when for any cause other crops have failed, as it, like turnips, makes its growth late in the season, can be sown on stubble, and will furnish excellent pasturage when much neded in the fail. When sown broadcast, use 5 pounds, and if in drills, 3 pounds to the acre.

Lb., 15c; 5 lbs., 50c; 10 lbs., 75c; 25 lbs., \$1.75; 100 lbs., \$6.50.

VETCHES

An excellent forage plant. Sow broadcast the same as wheat. Lb., 10c; 5 lbs., 35c; 10 lbs., 65c; 25 lbs., \$1.50; 100 lbs. \$5.50.

SANDVETCHES

A highly esteemed forage plant from Europe. The sandvetch prospers in the most barren soils, be it wet, dry or sandy. Lb., 15c; 5 lbs., 70c; 10 lbs., \$1.30; 25 lbs., \$3.00; 100 lbs., \$10.00.

SUGAR CANE

Early Amber—The earliest and most popular variety, and makes the finest quality of amber syrup and excellent sugar. Lb., 5c; 10 lbs., 45c; 100 lbs., \$3.75.

BROOM CORN

Improved Evergreen—The best for general use. The straw is fine and soft, long and straight; always remains green, never turning red. Lb., 10c; 5 lbs., 30c; 10 lbs., 50c; 25 lbs., \$1.10; 100 lbs. \$4.00.

TEOSINTE

A valuable annual forage plant. Yields an immense quantity of excellent fodder and can be cut three or four times. Worthy a trial, sow at corn planting time in drills 3 feet apart, dropping two or three grains to each foot. 3 lbs to an acre. Pkt., 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25; 10 lbs., \$10.00.

SUNFLOWER

Mammoth Russian—Very large and excellent food for poultry. Lb, 10e; 3 lbs., 25c; 10 lbs., 70e.

White Beauty—New; very productive, yielding on an average 3.000 lbs. per acre. Pkt., 5c; 1/4 lb., 15c; lb., 40c; 5 lbs., \$1.75.

GIANT SPURRY

Grows well on dry, poor sandy soil. Excellent for sheep and cattle. Sow from 12 to 16 lbs. on an acre. Lb., 15c; 5 lbs. 60c; 10 lbs., \$1.00; 100 lbs., \$8.50.

LATHYRUS SYLVESTRIS

Flat Pea-A desirable forage plant. More nourishing than clover, yields abundantly. Perennial, requiring no care after the second year. Pkt, 5c; oz, 10c; 1/4 lb..

MILLET

Prices subject to market changes.

Common Millet—Very early, grows two to three feet high, foliage broad. Lb., 5c; 5 lbs., 15c; 10 lbs., 25c;

Hungarian (Grass) Millet—A valuable forage plant, similar to common millet. Lb. 5c; 5 lbs, 15c; 10 lbs., 25c; bushel, \$1 00.

German or Golden Millet—Medium early, grows three to five feet high. Lb., 5c; 5lbs., 20c; 10 lbs., 30c;

bushel, \$1.10.

Hog Millet—A valuable variety, maturing at the same time as Hungarian Grass; very productive. Lb., 5c; 5 lbs., 20c; 10 lbs., 30c; bushel, \$1.20.

COW PEAS

Whippoorwill—Selected Seed of this excellent forage plant. Lb., 10e; 5 lbs., 35c; 10 lbs., 60e; 25 lbs., \$1.25; l00 lbs., \$4.00.

FIELD PEAS

Subject to market changes.

White Canadian-Peck, 40c; bushel, \$1.25. Scotch Green. Peck, 45c; bushe', \$1,35.

FIELD BEANS

Boston Pea or Small Navy-Hand picked. Quart, 15c; peck, \$1.00; bushel, \$3.50.

LENTILS

Cultivated like peas, requiring 40 to 50 lbs. per acre. 1.b., 15e; 5 lbs., 65e; 10 lbs., \$1.10; 25 lbs., \$2.50; 100 lbs., \$8 25.

BLUE FIELD POPPY

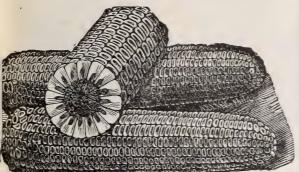

Oz., 5c; 1/4 lb., 10c; lb., 25c; 5 lbs., \$1 00.

SUMMER RAPE

An excellent fodder plant, enormously productive; also valuable for plowing under to enrichen the soil. Lb., 10c; 5 lbs., 40c; 10 lbs., 75c; 25 lbs., \$1.75; 100 lbs., \$6.50.

NORTHERN GROWN SEED CORN

All my seed corn is fire-dried northern stock, the very best which is to be had.

Pride of the North.

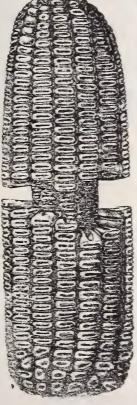

Pride of the North—A famous early variety of yellow dent. The merits of this corn cannot be appreciated until you note carefully the large yield and small percentage of cob to shelled corn. It will shell 60 to 65 lbs. per bushel of 70 lbs. of ears. Peck, 35c; bushel, \$1.25.

Ross' Golden Beauty This is a new variety of yellow dent corn, matures early, is of vigorous growth, attaining a height of 8 to 10 feet, nearly every stalk producing two fine ears, which are large, of perfect shape, containing 16 rows and filing out well to the end of the cob. Has a small cob, is easily shelled, and surpasses all others in size, appearance and productiveness. Peck, 45¢ bushel, \$1.50.

Angel of Midnight— an extra early yellow flint, 8-rowed variety. The ear is perfect in shape; length, 10 to 13 inches. Rows straight and even, and filled from tip to tip; stalks are of medium size. Peck, 35c; bushel, \$1.25.

White Cap Yellow Dent — An excellent new variety which combines more solid merit than any corn grown, being suitable for all kinds of soil, but especially for poor, thin soil. The grain is deep, white at the outer edge, balance yellow. Peck, 40c; bushel, \$1.40.

Wisconsin White Dent - The best white dent for this northern latitude, 16 to 20 rows, small cob, large kernels. Peck, 45c; bushel, \$1.50.

Koss' Golden Beauty Corn.

EVERGREEN FODDER

Profitable as green feed for milch cows, being sweeter and more nutrious and eaten more readily than fodder from field corn. Peck, 35c; bushel, \$1.25.

RED COB ENSILAGE CORN

This superior ensilage corn I can recommend as being the heaviest cropping variety in cultivation, producing from fifty to seventy-five tons per acre. It has been thoroughly tested in all dairy sections of the country with best results. It is a pure white dent corn of large size and handsome appearance, growing on a red cob. The fodder is sweet, tender, juicy and contains more nourishment than any other variety. It grows thirteen to fourteen feet in height, taking strong hold in the ground, standing well up and resisting storms of all kinds to a remarkable degree. Peck, 30c; bushel, 90c.

RED KAFFIR CORN

This variety grows taller and ripens earlier than the White Kaffir Corn; the staks are more slender, and very juicy and leafy. L b, 8c; 10 lbs., 50c, 100 lbs., \$3.50.

WHITE KAF-FIR CORN

Stocky and perfectly ect, foliage broad. The erect, foliage broad. The seed heads grow from 10 to 12 inches in length and the product of grain will average 60 bushels to the acre. Lb., 6c; 10 lbs., 40c; 100 lbs., \$3.00

MAMMOTH WHITE FRENCH ARTICHOKES

A new variety lately brought from France. They grow much larger than the Jerusalem and yield more. as good otherwise Artichokes are attracting much attention of late on account of their healthfulness: A splendid preventative of cholera. They are very easily grown and immensely productive, sometimes yielding as high as 1.000 bushes per acre. Cut the tubers up fine and plant the same as potatoes, only a little further apart. The hogs dig them for themselves. Peck, 45c; bushel, \$1.35; bbl., (enough for an entire acre), \$3 50.

GRASS AND CLOVER SEEDS.

Meadow Pescue.

I am most particular with my grass and clover seeds, to procure them from a source where there is no danger of foreign seeds, having become mixed with them, as I fully appreciate the great damage which some of these will create if once introduced into the soil. I guarantee that all my grass and clover seeds are of the finest quality and extra clean. Prices subject to market fluctuations.

1. Meadow Fescue—Lb., 15c; bushel, \$1.70; 100 lbs., \$11.50. Orchard Grass-Lb., 15c;

bushel, \$1.90; 100 lbs., \$12.50.
3. Tall Meadow Oat Grass Lb., 15c; bushel, \$1.90; 100 lbs.,

\$13.50.

4. Red Top—Lb., 10c; bushel, \$1.15; 100 lbs., \$8.00. 5. English Rye Grass—Lb., 10c; bu., \$1.20; 100 lbs., \$6.50.

6. Italian Rye Grass—Lb., 10c: bushel, \$1.25; 100 lbs., \$7.50.

Kentucky Blue Grass-Lb., 15c; bushel, \$1.75; 100 lbs., \$10.00

Canadian Blue Grass-Lb., 12c; bushel, \$1.30; 100 lbs., \$7.25.

9. Rough Stalked Meadow-Lb., 30c; bushel, \$4.25;

100 lbs., \$28.00, 100 lbs., \$28.00, 10. Creeping Bent—Lb., 18c; bushel, \$2.25; 100 lbs., \$15.75.

11. Tall Fescue—Lb., 20c; bushel, \$2.65; 100 lbs., \$18.00.

12. Meadow Fox Tail—Lb., 25c; bushel, \$3.00; 100 lbs.,

\$21.00.

15. Crested Dogstail — Lb. 30c; bushel, \$4.25; 100 lbs.,

\$28.00. 16. Yellow Oat Grass— 16. Yellow Oat Grass-Lb., 70c; bushel, \$9.50; 100 lbs., \$65.00.

17. Fowl Measure Oc; bushel, \$2.60; 100 lbs., \$17.00.

Awnless Brome Grass.

Orchard Grass.

18. Hungarian or wnless Brome-Awnless Grass (bromus in-ermis)—The U. S. Department of Agriculture in a special bulletin devoted to this grass gives this general information:

While this grass will grow on lands too poor for the more valuable agricultural grasses, and under conditions of climate which would entirely preclude the culture of these last, its productiveness depends. as in other cases, upon the amount and availability of the food supply. In other words, the better the conditions the better the growth. It is resistant to intense cold, and stands protracted drouth better than any other cultivated variety. Lb., 20c. bu., riety. Lb., 20c. bt \$2.25; 100 lbs., \$14.75.

19. Wood Meadow —Lb., 35c; bushel, \$4.65; 100 lbs., \$32.00.

20. Timothy-Market price, a b o u t 10c per lb.; peck, 85c; bushel, \$3.15; 100 lbs., \$6.75.

21. Medium Red Clover-Market price about 15c per lb.; peck \$1.75; bushel, \$6.50; 100 lbs., \$10.75.

22. MammothRed Clover-Market price about 15c per lb.; peck, \$1.85; bushel, \$6.75; 100 ibs., \$11.00.

23. Silesian R e d Clover—Extremely hardy. Lb., 15c., peck, \$1.95; bushel, \$7.00; 100 lbs., \$11.50.

24. White Clover -Lb., 25c; peck, \$2.50; bushel, \$9.25.

25. Seradella-For very dry soils. Lb., 12c; 10 lbs., \$1.00; 100 lbs., \$9.00,

26. Crimson Clover - Also known as Italian and Scarlet Clover. Lb., 15c; peck, \$1.75; bushel, \$6.40; 100 lbs., \$10.00.

27. Sand Luzerne
For light sandy soil. Lb., 25c; peck, \$3.00; bushel. \$11.50; 100 lbs. \$18.50.

28. Alsike Clover -Market price about 20c per lb.; peck, \$2.90; bushel, \$11.00; 100 lbs., \$18.00.

29. Sainfoin - For light chalky soils. Lb., 12c; 10 lbs., \$1.00; 100 lbs.. \$8.00.

Lnzerne.

Luzerne or Alfafa - Furnishes an enormous quantity of fodder and can be cut three or four times in a season. When once started, its roots strike so deep a season. When once started, its foots strike so deep that neither frosts nor droughts effect it. Lb., 15c; peck, \$2.00; bushel, \$7.75; 100 lbs., \$12.50.

Grass Mixtures for Permanent Pastures and Meadows.

I prepare mixtures for all kinds of soil. Ask for full particulars, stating what kind of soil you wish Ask for full particulars, t seed, whether wet or dry and if for hay or pasture. I have had long experience in doing up mixtures of grasses for permanent pastures and hay and will be certain to satisfy you. Prices range from 10c to 18c per pound, according to the variety of grasses used.

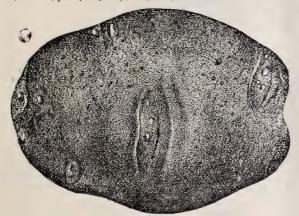

English Rye Grass.

A PAGE OF CHOICE SEED POTATOES.

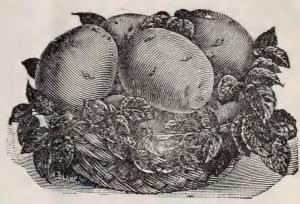

With no other seed is the importance of change more essential than with the potato. By using my northern grown seed you are assured of early maturity, increased yield and a vigorous growth. My stock, as usual, has

been grown from selected seed, and expressly for seed purposes. Order as early as possible, stating whether you desire them shipped by express or freight, and I will ship as soon as the weather permits. Prices are subject to market No charge made for bags, barrels or changes. cartage.

Extra Early Ohio - Early Ohio is the most popular early potato in this country. We have more calls for it than for any other variety. Every potato grower knows what it is, and knows just about what it will do in his locality. It is the standard extra early the country over, and other varieties are measured by it. We have an other varieties are measured by it. We have an extra choice strain of Early Ohio. We will venture to say that not one farmer in ten, the country over, who thinks he has Early Ohio has pure stock Most of them do not know that they are mixed. But Early Ohio is an old variety and has become frightfully mixed throughout the United States. Farmers and market gardeners better sell off your own Ohios and get some of our pure improved, grown from Red River Valley seed. Price, peck, 40c; bu., \$1.25; bbl., \$3.25.

Thoroughbred.

Extra Early Ohio.

Thoroughbred-Two years ago this splendid potato was sent out at the high price of \$25.00 per barrel. It proved such a winner that there never has been stock sufficient to supply the demand until this season. The claims made for it are "as great a cropper as Irish Daisy, as fine flavored as the Freeman, and as early or earlier than the Early Ohio." The tubers are oblong, smooth, in color light blush or pink. They form compactly in the hills, and at digging time nearly all the potatoes are of marketable size. The eating quality is "something extra."

Peck. 45c; bushel, \$1.40; barrel, \$3.50.

The Signal—The best early potato ever introduced. Regular in shape, smooth in outline; skin a beautiful light flesh color, very bright and clear giving it a fine delicate look; very early, a wonderful strong grower and of excellent quality. Its most striking characteristic is its great vitality and vigor of growth. As to yield I do not believe there is another variety as early as The Signal that will outyield it. Peck, 35c; bushel, \$1.25; bbl., \$3.25.

Rural New Yorker No. 2—One of the larg-st yielding varieties Large and unusually smooth, with a few shallow eyes; skin and flesh white. Medium lats. Peck, 35c; bushel, \$1.25; bbl., \$3.25.

Freeman potato has been advertised very extensively during the past few years and has given excellent satisfaction to every pur-My trials of it chaser. show it to be medium early, a good cropper, very handsome in appearance, skin white, and russety. My stock is grown from seed bought direct from headquarters. Peck, 35c; bushel, \$1.20; bbl., \$2.90

Carman No. 3-Doubtless the most popular late potato of the newer varieties, and certainly one of the most worthy. It yields great crops of fine, large, smooth potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in money. Its good appearance, uniformity of shape, size (average one pound each.)

and productiveness makes this a leading variety to grow for market. It has but few eyes and they are very shallow. The skin and flesh are extremely white, no hollow or dark parts. Cooks up dry and mealy every time. Peck, 45c; bushel, \$1.40; bbl., \$3.50.

Koss' Select List of FLOWER SEEDS

They have been much improved by careful selection, and are now really magnificent flowers. They will blossom the first season from seed sown in the spring, but the blossoms will be much stronger the second season. Succeeds best in dry, loamy soil. Tender perennial, two feet high. Mixed colors, pkt., 5c. ALYSSUM, Sweet — Strinfrant. — A desirable hardy annual, flowering

from early spring until killed by frost. Flowers pure white. Pkt., 5c. ASTERS. Aftern .- This splendid class of plants is

WHITE CUPID SWEET PEAS.

WILD FLOWER GARDEN, MIXED SEEDS-The introduction of these has proved a most marked success, and are becoming more popular every year. The "Wild Garden" for its unusual and varie, effects, cheapness, and the small amount of labor necessary for its construction, has no rival. The "Wild Garden Seeds" are a mixture of the different hardy flowers, thus insuring on account of the different seasons of bloom, something new almost every day. Pkt., 5c; oz., 20c; 1/4 lb , 60c.

Mixed Climbers-Are a mixture of many varieties of climbing plants which will produce the most gorgeous effect. When the space to be planted is limited this will save some expense in purchasing so many varieties. Plant in spring where they are to remain; the soil should be rich and deep. Pkt., 5c; oz., 20c; ¼ lb., 45c.

Summer Flowering Bulbs

Soon make a gorgeous display, flower the first summer and bloom and multiply season after season.

DAHLIAS-Best improved varieties, named colors, white, red, yellow and purple, each, 20c; doz., \$2.00.

GLADIOLI-This charming flower is coming more and more into use as its great improvement gets more universally known.

Extra Fine Mixed-Mostly light colors, fine grade, each, 5c; doz, 50c. Fine Mixed-Second quality, 3 for 10c; doz., 35c.

TIGRIDIA. Conchifiora-(Mexican Shell Flower.) Extremely handsome summer flowering bulbs growing about two feet high, producing gorgeous flowers, dark yellow spotted. They flower very freely throughout the summer, particularly if the bulbs are planted in a warm sunny position.

5c each; 50c doz.

TUBEROSES—Very beautiful pure white, waxlike, sweet scented, double flowers, growing on tall stems, Each stem bearing a dozen or more flowers.

Pearl-Medium height, very fine, 5c each, 50c doz.

CALADIUM. Esculentum—(Elephant's Ear.) A grand tropical looking plant, growing 4 to 6 feet high, producing leaves of immense size. A favorite for specimens on the lawn. Wants rich soil and plenty of moisture. Fine large bulbs.

See our Bargain Collection of

12 packets of Flower Seeds for 25c on back cover page.

PEARL TUBEROSE.

CALADIUM.

seed.

RED CROSS PEANUTS.

This very desirable variety is as early as the earliest; the most hardy, very prolific, and of the best quality. Boys, here is a chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell the nuts carefully so as not to break the in-

side skin and plant as soon as the ground becomes warm, from two to three feet apart each way, four or five in a hill, covering two inches The soil should be deep and mellow.

Price, per large package, 10c; lb., 40c. postpaid.

GROUND CHERRY.

Improved Yellow.—Another year adds only to the popularity of this already

popular little fruit. It is a great improvement on the wild Ground Cherry. They grow well on most any dry soil; are easier raised than the tomato, and are prolific bearers, and oh! such luscious fruit. For sauce they are excellent, and for pies nothing can equal them for taste and flavor. They are delicious as preserves and when dried in sugar are much better than raisins for cakes and puddings, and they will keep in the shuck, if put in a cool place, nearly all winter.

Pkt., 5c: 1/2 oz., 25c: oz , 40c

EGYPTIAN LENTILS.

Large:y used in Oriental conn tries and is one of their principal articles or diet. It was from these that the dish of pottage was made and for which Esau sold his birthright to Jacob in Bible times, and many will be interested in them for that reason. They are in growth similar to peas and may be used in any way that you would use shelled beans, and they also make an excellent soup. Sow and cuitivate same as garden peas and thresh out in the fall. All should try them.

Pkt, 5c; oz, 10c; ¼ lb., 30c; lb., 75c; 5 lbs. or more at 50 cts. per pound.

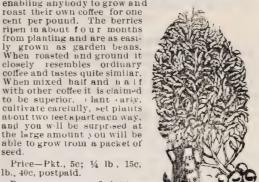

THE GERMAN COFFEE BERRY.

This most wonderful plant is enormously productive, enabling anybody to grow and roast their own coffee for one cent per pound. The berries ripen in about four months from planting and are as easily grown as garden beans. When roasted and ground it closely resembles ordinary coffee and tastes quite similar. When mixed half and half with other coffee it is claimed to be superior. | lant +arty. cultivate carefully, set plants about two feet apart each way, and you will be surprised at the large amount you will be

Price-Pkt., 5c; 1/4 lb., 15c, lb., 40c, postpaid.

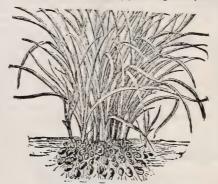

By express or freight -Peck, \$1.00; bushel, \$3.50.

CHICORY.

Large Rooted.-Used as a substitute for coffee. Cuitivate as carrots. Take up the roots in the fall, cut into small pieces and put away to dry. When wanted for use it is roasted and ground like coffee.

Pkt., 5c; oz., 10c; ¼ 1b., 30c. One ounce will sow about fifteen square feet.

CHUFAS or EARTH ALMOND.

A nice little ground nut which is greatly liked by the children. In sweetness and flavor they resemble the cocoanut or almond and are considered very nice put on the table in a truit dish with candies, as an after-dinner relish. Very prolific, a single one yielding from two to four hundred. The nuts grow underground, very near the surface, easily reached by pigs and poultry, and de-stroyed by them if they have free access. P and in April, ten inches apart, in two and one-half foot rows. Cover them lightly. If seed is very cry, soak well before planting. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

known virtue, in the form of a very fine powder; for the cut worm, caterpillar, currant and gooseberry worm it is invaluable It will also destroy many other insects infesting trees, vines, plants, etc.

POULTRY SUPPLIES.

We issue a complete illustrated and descriptive catalogue of Poultry Supplies which we will gladly send to all who are interested in Poultry. Ask for it.

Granulated Bone

is about the size of wheat and can be fed like any other food in grain, about one handfull to every five fowls daily, or every other day. In either manner it furnishes a valuable food for poultry at all seasons of the year. Price, 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 75c, 50 lbs. \$1.20, 100 lbs. \$2.15.

Fine Bone Meal. For Poultry and Cattle.

For mixing once a day with soft feed this is unsurpassed. Laying hens and young chickens whose digestive powers are not strong, are much benefited by this, especially during the winter months, or where closely confined in yards. This is the same as "Granulated Bone" described above, only it is ground much finer. Price, 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 75c, 50 lbs. \$1.20, 100 lbs. \$2.15.

Blood Meal.

A superior supplemental tood, producing marvelous results, when fed to matured fowls and chicks. Blood Meal is probably the most highly concentrated food ever manufactured. Each two ounces of Blood Meal represents one quart of raw blood. Poultrymen tell us that Blood Meal is greatly relished by fowls, and that an increase in the number of eggs is quickly noticed when they feed it. Blood Meal is merely meat in a highly concentrated form, rich in albuminoids

and ash, both of which enter largely into the composition of the egg. One ounce a day to ten hens will more than double the number of eggs, besides keeping the fowls in a healthy condition. Price: 10 lb. sack, 50c, 50 lb, sack, \$2.00, 100 lb. sack, \$4.00.

Choice Ground Beef Scraps.

My ground beef scraps are specially prepared. Feed three times a week at the rate of about a handful to to every three birds in the morning meal of hot food. During hot weather the scraps need not be fed more than once a week. 100 lbs. \$2.25, 50 lbs. \$1.25, 25 lbs. 75c, 10 lbs. 35c, 5 lbs. 20c.

Beef Meal.

This is made from meat, bone, blood and the liquor from cooking. Rich in albumen and protein. It is a nitrogenious food and a great egg producer. 100 lbs. \$2.25, 50 lbs. \$1.25, 25 lbs. 75c, 10 lbs. 35c; 5 lbs. 20c.

Ground Charcoal.

A little ground charcoal mixed with the soft feed in the morning once or twice a week is an excellent corrective for fowls and keeps them healthy. Prevents souring of food in the crop. 25 lbs. \$1.50, 10 lbs. 75c, 5 lbs. 40c, 1 lb. 10c.

Sheridan's Condition Powder.

These powders will set the hens to laying, and will at the same time keep all the fowls in the pen in good condition. For the pip there is nothing better than Sheridan's Condition Powder. Small package, 25c, large package, \$1.00.

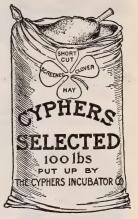

Cyphers Clover Meal.

This is nothing more than clover hay ground to a fine meal by special machinery. In this condition it is very readily mixed with ground feed with which it should be used, and there is no waste whatever. Clover meal contains every part of the egg, the white, the yolk and the white, the yolk and shell. It is rich in nitrogen and mineral matter; all the egg is found in clover in a form that is quickly and easily assimilated. It promotes their health by enriching their blood and toning up their system. It brightens up the duil combs and soon changes the idle hens to busy, happy and profitable ones. Price; 5 lbs. 25c, 25 lbs. 75c, 50 lbs. \$1.25, 100 lbs. \$2 00.

Cyphers Cut Clover Hay.

Cut clover for poultry is acknowledged by all to be one of the most desirable of foods to be had. If cut and cured properly, and then scalded and steamed, it preserves all the merits of fresh clover, and thus fed in connection with ground feed, is one of the best egg producing foods that can be fed, being bulky, and containing much of the elements of the egg. Our clover is cut green, and cured expressly for the purpose, and is cut very fine-finer than any we have seen from other dealers. All who have had our cut clover are much pleased with it. Price: 5 lbs. 25c, 25 lbs. 75c, 50 lbs. \$1.25, 100 lbs. \$2.00.

The Stearn's Clover Cutter.

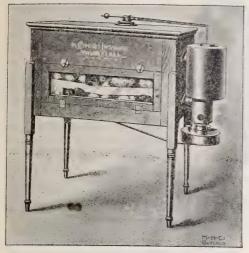

For a low priced clover cutter we offer the Stearn's, illustraled herewith. A small machine, but one that will do reasonably good work. It is simple in operation and gives satisfaction to fanciers and others who raise poultry on a small scale, and who do not feel justified in buying a high-priced cutter, but still desire to feed cut clover. This little machine will cut all kinds of have easily and readily, making 8 cuts to every revolution of the crank. It is a self-feeder, self-sharpener, weight only five pounds, thus making the express charges very light.

PRICE \$3.00.

Mann's Clover Cutter.

Made entirely of iron and steel. Cannot warp or shrink. Mounted on iron stand. Price \$10,00, without stand \$8.00.

The Cyphers Non-Moisture Incubators Are Fully Guaranteed.

No. 1. 120 EGG CYPHERS.

The Cyphers Incubators, for which we are authorized agents, are FULLY GUARANTEED by the manufacturers as follows:

First: To require no supplied moisture.

Second: To be self-ventilating.

Third: To be self-regulating.

Fourth: To operate with less oil and at less expense than any other make of incubator.

Fifth: To be fireproof, having the best, the safest, and the most costly built heater attached to any incubator.

Sixth: To be the easiest to operate and control, requiring less labor and attention than any other make of incubator.

Seventh: To produce larger and stronger chicks than any other make of incubator on the market.

Eighth: Also, that where it is run with any incubator of a different make, it shall, in three or more hatches, bring out a larger percentage of the fertile eggs in good, healthy chicks or ducklings than does its competitor.

If you are in search of the latest patented, most durably built and best practical incubator, one that will hatch the largest number of the strongest and healthiest chicks or ducklings, the Cyphers is that machine.

During the past season we have sold a great many of these incubators and they have given universal action. They are so constructed that no artificial moisture is supplied, and owing to their construction there are no cold corners. The machines require very little attention and are exceedingly easy to operate. The expense of running is only nominal. We are handling only the Cyphers Incubators, as we believe them to be by far the best made, and there is no advantage in handling anything but the best.

These incubators are built for bui

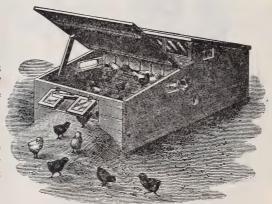

These incubators are built for business—nothing fancy about them, but the very best material and work-manship. One style only is made—The best. They are warranted to last ten years without repair.

THE CYPHERS BROODERS.

The problem of successfully raising chicks artificially has been solved, and the Cyphers Brooders have accomplished it, and we now offer the most complete line of brooders ever put on the market. The Cyphers Outdoor Brooder is a marvel of its class, being designed for cold weather. It has a % pine roof, covered with sheet tin and nicely painted. It has top heat, with just enough bottom heat to keep the floor comfortably warm. The forward division is a covered and heated run for feeding and exercise in stormy weather. The typhers are hot air brooders exclusively. The Indoor Brooder has the same heating system as the Outdoor, but no covered run, It can be used successfully in a cold building the year round.

Special Advantages In Buying Of Us:

First, we will sell to you at factory prices. Second, we save you valuable time by carrying a large line of Cyphers Incubators and Brooders in stock at all times, thus insuring you QUICK DELIVERY, the saving in time in some cases amounting to two or three weeks. Third, we save you freight from the factory to this city. This is highly important. The Cyphers goods are constantly on display at our place of business, and we invite a personal call, if convenient. All told, it is plainly to YOUR ADVANTAGE TO PLACE YOUR ORDERS WITH US. We guarantee fair treatment and prompt service in all particulars.

The HUMPHREY GREEN BONE and VEGETABLE CUTTER.

THE OPEN HOPPER TYPE. Sold on a Positive Guarantee to Cut More Bone in Less Time and with Less Labor than any other Bone Cutter Made.

The only real open-hopper type, free from partitions and obstructions in the bone receptable, is pre-eminently the practical machine for cutting green bone. The feed is every instant under perfect control of the operator; it reduces the bone to the best possible condition for feeding. It is sold on a positive guarantee to cut more bone in less time a n d with less labor than any other bone cutter made. Your money back if it doesn't.

You ought to have a b o n e cutter. You ought to have one which will do the best work with the least trouble to you. That machine is the Hum-PHREY. It is the simplest in construction. It is ready for use the second you get your basket of bones-no chopping with an ax; no adjusting of springs nor "handles." It is built on the right plan-a plan which other manufacturers are attempting to imitate, at least so far as the name is concerned. It does the work.

The Humphrey Green Bone and Vegetable Cutter is offered our customers with the assurance that it is the best machine of the kind made to-day. We recommend it only because we feel certain that it will give satisfaction. It runs so easily, works so rapidly, makes food of such fine quality, that it easily ranks first of all bone cutters. We do not feel that we are called upon to point out the advantages of cut green bone, or to dwell upon its value. That is conceded by every poultry man. In the "Humphrey" they will find the machine they have been looking for. It works to perfection. It will pay for itself in a few months' time, at any season of the year.

GEM SPRING LEVER PUNCH.

This punch is made one size only which can be used on fowls of any age. The leverage provided in this device for marking poultry enables one to punch with perfect ease any kind

or number of webs. This punch is self-opening, the action being produced by a strong coil spring encased in a plunger, which is compressed in the act of punching. They are well made, handsomely finished and carefully tested. Price each, postpaid 35c.

F. P. C. Chick Manna.

Ten Days' Food For Little Chicks When First Hatched.

To produce a food adapted for the first feeding of little chicks and at the same time overcome all the difficulties attending success in raising chicks profitably, has been the consideration of the manufacturer of Chick Manna. As a result we have placed upon the market a food that has merited the praise and admiration of poultry keepers, comprising a varlety of nutritous food and health preserving properties, so proportioned and combined to be peculiarly adapted to promote Health, Quick Growth and Strong Development. Especially valuable for raising chicks in the winter and early spring. Prices: 1 lb. 10c. 5 lbs. 40c, 15 lbs. \$1.10, 60 lb. case. \$4.20.

Caponizing Instruments.

These instruments are in demand, especially throughout the west; where caponizing pays handsome profits. We recommend and offer for sale the Pilling instruments, price, per complete set with instructions, in pasteboard box \$2.50, in velvet box, \$2.75. Instructions, fully illustrated, accompanying each set of instruments. The prices quoted cover postage.

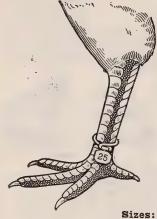

Hens' Wire Nets.

Strongly made of heavy wire and will last a life time. There is no room in them for lice to find lodging place, and they are easily kept clean.

Price, 15c each, \$1.50 per doz.

These bands have been on the market for several years, and have proved the most satisfactory device for marking poultry.
They are especially desirable for marking birds with feathered legs, and are neat, simple, easy to put on, and absolutely secure if properly applied.

They are in general use by leading poultry men and poultry asso-ciations, and their immense sale attests their popularity. Rings are made of spring brass and the tags are of aluminum.

No. 1, $\frac{1}{2}$ in.; No. 2, $\frac{1}{8}$ in.; No 3, $\frac{3}{4}$ in.; No. 4, $\frac{7}{8}$ in.; No. 5, 1 in.; No. 6, 1 $\frac{1}{8}$ in. Always give sizes wanted, or state breed of fowls bands are to be used on. They are not made in pigeon sizes.

Sanitary Stoneware Fountain.

This Sanitary Stoneware Fountain (see illustration) is made in two parts. There is a saucer, so that the chicks can drink all around it. The top can be removed from the fountain allowing it to be thoroughly cleansed inside, thus entirely eradicating all the germs.

To fill the Sanitary Stoneware Fountain,

you simply remove the saucer, turn the jar upside down, fill, place the saucer on, turn it back and the saucer will fill with water, but will not run over. The chicks cannot get in and drown as in open jars or cans, and the saving of this alone will pay for a dozen fountains.

Conkey's Roup Cure.

CONKEY'S ROUP CURE is the only remedy that is positively guaranteed by the manufacturers to cure roup in all its forms. It is simply put in drinking water and the chicken takes its own medicine. It prevents colus and is unequaled for canker, especially in pigeons.

PRICES: Small size packages, 50c. postpaid; large size packages, \$1, postpaid.

ONE 50c. PACKAGE MAKES TWENTY-FIVE GALLONS OF MEDICINE; \$1
PACKAGE MAKES SEVENTY-FIVE GALLONS OF MEDICINE, hence it is the best and cheapest cure of its kind in the market,

Messrs. Conkey & Co. guarantee this remedy as follows: "We guarantee each and every case where Conkey's Roup Cure is used. If it fails, we refund the money." Directions in every package.

CONKEY'S POULTRY TONIC. To get the best results from Conkey's Roup Cure a little of Conkey's Poultry Tonic should be used in connection with the Roup Cure. By mixing a tablespoonfull in a quart of soft feed twice a day, it will strengthen the birds, tone up their system, and act as a preventive of the various diseases to which poultry is subject. Conkey's Poultry Tonic is claimed by the manufacturers to be the greatest egg producer prepared. It is prepared under such scientific principles that none but larger, healthier fowls and more eggs are produced than with any other egg food on the market. It is especially valuable to make young chicks strong and hearty and will add a brilliancy to their plumage.

PRICE: 25 cents per package; 15 cents extra for postrge.

CONKEY'S LOUSE KILLER is guaranteed to kill lice, flees, moths. cockroaches, bedbugs, ticks on sheep and all kinds of other vermin. Conkey's Louse Killer is especially prepared for lice on chickens and all kinds of poultry and will not injure the plumage. Conkey's Louse Killer is guaranteed. If not as represented we will refund your money.

PRICE: 25 cents per package; 15 cents extra for postage.

CHICKENS AND HOGS LEES LICE KILLER LEES

Lee's Lice Killer.

The use of this preparation has become so universal, and results are so satisfactory, that most poultry-raisers would not know how to keep house without it. It is no longer necessary to dip or dust poultry to kill the lice. A can of Lee's Lice Killer, and a few minutes work in applying it to the roosts, means all the expense and labor now necessary to keep the fowls free from both mites and body-lice. I quart, 35c; ½ gal., 60c; 1 gal., \$1.00; 5 gals \$4.00.

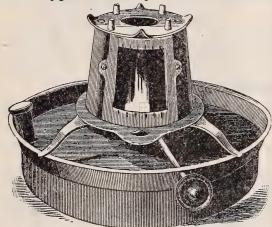

Lee's Egg Maker.

Lee's Egg Maker is onehalf granulated blood (deoderized). The other halfconsists of p o w dered roots, salts and spices mixed in proportion as most needed and best adapted to the health and productiveness of poultry. Lee's Egg Maker brings the eggs when all else has failed, fertile eggs and lots of them.

42 oz. package, 125 feeds for 10 fowls, 25c. 25 1b. pail, \$2.00.

The Cyphers Safety Brooder Stove.

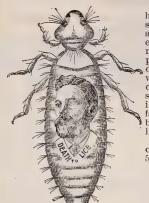

THE CYPHERS SAFETY BROODER STOVE.

These stoves positively have no equals. The wnter jacket holds fully a quart of water and extends out over the entire surface of the oil bowl, thus placing a sheet of cold water an inch to an inch and a half in thickness between the oil bowl and the fiame jets. By this arrangement all danger of the generation of explosive gases, arising from the top of the lamp or the burner becoming heated is removed; and we have a brooder stove that can be relied on. The Cyphers Brooder Stove furnishes twice the heat of an ordinary brooder lamp, and lamps are far from being safe. Cheap lamps are equip ed with cheap burners, which will gum up, smoke and thus endanger the chicks. In constructing a home made brooder of any pattern make sure that the fumes and gases arising from the lamp or stove cannot possibly enter the brooding chamber.

Price List.
Each, \$1.25. Three, \$3.60. Six, \$7.00. Twe've, \$13.50.

Lambert's Death to Lice. A Disinfectant Insect Powder.

For lice on setting hens, laying or exhibition stock. It works immediately without injury to eggs or chickens. Does not soil the plumage yet purifies and cleanses down to the skin Alsoin-valuable for lice on horses, cattle or plants, ticks on sheep, fleas on dogs, moths in carpets and turs. In fact, lice on anything can be exterminated by a liberal use of this powder.

liberal use of this powder.
Price: 5 oz. box, 10c; 15
oz. box, 25c; 48 oz. package,
50c; 100 oz. package, \$1.00.

Death to Lice Ointment.

Is a pure white perfumed mixture, introduced mixture, introduced 1897, improved 1898. Especially adapted for head lice on children and chickens. Recommended also for chiggers, scally shanks on fowls, etc. Retails at 10 and 25 cents per box. Sent postpaid on receipt of price. Will keep in any climate.

Death to Lice Special.

In powder form for dissolving in coal oil or kerosene. Will make one of the best Liquid Louse Killers in the market, at much less than usual cost. It can also be sent by mail. Keep dry and mix as wanted. Paint the roosts, dropping boards and surrounding woodwork with the mixture which will rid your henery of mites, spider lice and other insects. Sample (40z. box) enough to make 1 quart, 10c. 16 oz box 2-c. makes 1 gallon. Price does not include postage by mail, which is 1c per oz. extra.

Oakes' Hydro Safety Lamp.

For incubators and brooders. So constructed that water surrounds the wick, thus preventing heating of the oil.

No. 2, 1 inch wick, Style B, \$1.00, Style A, \$1.50. No. 3, 1½ inch wick, Style B, \$1.50.

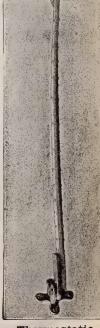

No. 3, 1½ inch wick, Style B, \$1.5 Style A, \$2.00.

Hydro Safety Lamp.

The Improved Oakes Compound Thermostatic Bars

for Incubator Regulators. A combination of hard rubber and wood, securely united by a double row of brass rivets. 20 in., \$1.50; 24 in., \$2,00.

Thermostatic Bars.

A SELF OPERATING or AUTOMATIC SPRAYER AUTO-SPRAY.

Eight to ten strokes of plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. This means that the "Auto-Spray" can be charged in fifteen seconds, when it will work uninterruptedly long enough to spray a quarter-age of notates.

acre of potatoes

The "Auto-Spray" is light and being carried by a shoulder strap, a boy can carry it with ease and Can Cover Ten Times More Area in a day than can be covered with the old style sprayers which require the operator to be constantly pumping in order to do the spraying. The "Auto-Spray" does the work as fast as a man can walk.

Descriptive circular sent on application

ITS USES.

For spraying insecticides and fungicides upon all plant and tree life.

As a fire extinguisher.

For spraying carbolic acid to prevent hog cholera.

For spraying insecticides and whitewash in hen-houses.

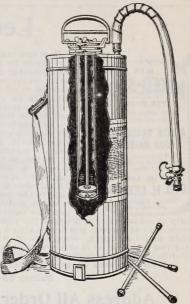

For spraying disinfectants in hospitals and other places to prevent the spread of contageous diseases, such as yellow fever, typhoid fever, etc. For spraying nicotine and other insecticides in greenhouses.

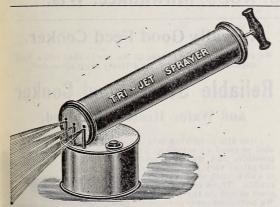

For swarming bees.

For washing windows and wagons.

For cupping. As a sprinkler for plants and flowers.

For sweeping floors, taking the place of wet saw-dust.

THE "NEW ERA SPRAYER" is too well known to need extensive description. This sprayer embodies the principles of an ordinary atomizer, and is new only in the application of same to a new use. It is economical, not only because of its low price, but, because of its great saving of material. For small use where labor is not a consideration, the "New Era Sprayer" will be found effective and useful. Has galvanized reservoir.

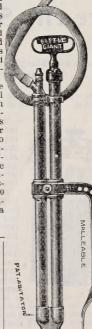

Price: 75 cts.

Little Giant Bucket Spray Pump.

This Spray Pump is constructed entirely of brass, a material that is not effected by the poisonous arsenites used in different formulas for spraying fruit trees, vines and shrubbery. It is so arranged that the labor of pumping is all done on the downward stroke of the piston and nothing on the up.

It is provided with a large air chamber, and has a ball valve at the bottom between the cylinder and the air chamber, whereby the pressure is held uniformly in the air chamber and on the hose so that the nozzle throws a continuous spray, and is not effected by the movement of the plunger. The operator is enabled to keep a constant pressure on the nozzle of from 50 to 100 pounds with very ordinary exertion. It will throw a solid stream 50 feet.

Price, \$4.00.

The Double Tube Lightning Insect Exterminator

Kills, drives away and exterm nates every living thing obnoxious to yourself, your animals or your crops.

This is just the thing for spraying Liquid Lice Killers in poultry houses, etc This sprayer has a detachableglass

reservoir (an ordinary Mason fruit jar) provided with a patent spring leather plunger expander, which at all times keeps the leather washer expanded and will not allow it to wrinkle or dry up, which is the case in other sprayers.

the glass sprayer will not corrode or rust out, as is the case with all other metal. This will be appreciated

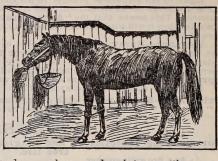

at a glance.

The screw cap of the sprayer is made of heavy zinc, and the air chamber and jacket of heavy tin, nicely painted a bright red, making it very durable and attractiqe. Price, 75 cents.

Lee's Mixed Salt.

Is the latest and best- a self-feeding food-ration and conditioner for stock. It is a carefully preand conditioner for stock. It is a carefully pre-pared compound of charcoal, sulphur, salts, roots, and herbs, supplying the variety of food ele-ments needed by all animals, and which they ob-tain naturally on unlimited range. Being un-mixed with any meal or food filler, it can safely be placed before the animals and their "horse sense" or animal instinct trusted for taking just the right amount every day. If they don't need it, they don't eat it. It is the only sensible way of snpplying the balanced ration. It will keep stock healthy, thrifty, and profitable, and at the minimum of cost. A 25-lb sack will last one animal an entire year. It supplies it just when needed, and with no labor or bother. It adds from 10 to 20 per cent to the feeding value of the grain ra-

OMAHA, NEBRASKA
20 per cent to the feeding value of the grain ration for horses, cattle, sheep, or hogs.

If you are feeding stock foods, condition powders, or home-made mixtures, either regularly or occasionally you are on the right track, but going it blindly. If you are allowing your stock nothing but grain, hay and water, you are making a costly mistake. They need other things, and only themselves know exactly when and how much. Supply them with **Lee's Mixed-Salt**—not mixed with their food, and place it where they can take it or let it alone—and you will always have a sleek, thrifty lot of animals, and no use for stock foods, condition prowders or medicines.

condition powders or medicines.

With every sack we give a salt-cup for stall-fed animals as shown in illustration.

Price: 25-lb. Sack, \$1.00; 100-lb. Sack, \$3.50.

The Automatic Cream Separator.

Cheapest and Simplest Separator Made-A Child Can Operate It.

This separator is the only separator in the market is kind. The price of this separator is \$2.50, without of its kind.

The operation of the dairy is so intimately connected with the enjoyment of life and happiness that the invention of the AUTO-MATIC CREAM SEPARATOR is hailed by thonsands of ladies on whose shoulders rests the main burden of the dairy work.

Butter making has been discontinued by many farmers for the following reasons: Too much labor, and not having the necessary room or appliances to make good butter, so that paying prices could be received for the same. Years of study and close attention has enabled us to overcome the e objections, so that we are now able to offer to the public a cream separator that does away with more than one-half the labor, besides enabling you to

make butter as good as any creamery. You do not need any expensive fixtures or special houses for this, as in the summer time all that is needed is a shelter for the milk; no ice house or spring house is required, and the carrying of the milk to the cellar is dispensed with.

A Really Good Feed Cooker.

We are not the only people in the world that sell a feed cooker, but we do offer a strictly high class one.

Reliable Stock Food Cooker

and Water Heater Combined.

Our aim in offering this standard cooker was to furnish as good an article and at as reasonable a price as

possible, and we have made the prices very low, believing in quick cash sales and small profits. These cookers are as good as any on the market. We have used every precaution to have them made out of the best materials and in a work-manlike manner. The boiler is made of No. 14 heavy galvanized steel. The furnace complete consists of door frame, grate, plate, hearth and legs. The legs are cast separately so they can be packed as to insure safe delivery. In other makes of cookers the legs and frames are cast together, which result in In other makes of cook-

great danger of breakage in shipping. This is one su perior point in favor of our cookers. The accompany This is one suing illustration is an exact reproduction of the Standard Reliable Stock Food Cooker and Water Heater combined.

Lightning Bag and Sack Holder.

Push a stake in the ground anywhere and fill with potatoes, corn or anything desired.

Yes, you can buy a bag holder for a couple dollars

or more, but we will sell you a better one for 25c.

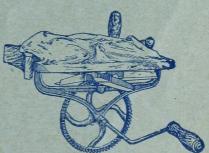

This is not only a bag holder but a sack holder as well. It is self-adjusting. The upper part is well adapted to hold in one hand while bran or grain is scooped in with the other hand. In this way it is very convenient for millers and others. Also is perfection for holding mouth of bag open if you want to fill in the bin by drawing the grain in with your hands

The bag is attached and detached as quick as light-ning; hence the name. Don't think because it's cheap it is not good. If you don't consider it as good as any bag holder you ever saw, and far more convenient, send it right back and get your money. After you get one you will want another or several. You will find several around the farm as convenient and desireable as several pockets in your every day suit of clothes.

> Remember, only 25 cents for the best Bag Holder on Earth.

National Broadcast Seeder.

FULL INSTRUCTIONS WITH EVERY MACHINE.

PRICE, \$1.50 EACH. BALL BEARING.

No careful economical farmer will continue to sow his seed by hand (the old way) when he can get one of these machines at our low price, They will save their cost daily in the saving of seed, to say nothing about saving of time and more even distribution which will have great effect on the crop.
